

2020–21 Civil Rights Data Collection – School Form

WHAT IS THE PURPOSE OF THIS SURVEY?

The purpose of the U.S. Department of Education (ED) Civil Rights Data Collection (CRDC) is to obtain data authorized under the statutes and regulations implementing Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and under the Department of Education Organization Act (20 U.S.C. § 3413). The regulations implementing these provisions can be found at 34 CFR § 100.6(b); 34 CFR § 106.71; and 34 CFR § 104.61. The *Department of Education Organization Act* (20 U.S.C. 3413(c)(1)) authorizes OCR to collect data that are necessary to ensure compliance with civil rights laws within its jurisdiction. In order to do this, the CRDC collects a variety of information, including student enrollment and educational programs and services data that are disaggregated by race/ethnicity, sex, English learner (EL), and disability. This information is also used by other ED offices as well as policymakers and researchers outside of ED.

WHO IS CONDUCTING THIS SURVEY?

The ED Office for Civil Rights (OCR) is conducting this survey. The CRDC is a mandatory data collection, conducted based on the statutory and regulatory authority cited above.

HOW WILL YOUR INFORMATION BE REPORTED?

Information reported on this survey becomes available to the public in a privacy protected format. You can see how the previous CRDC data were reported to the public by going to <https://ocrdata.ed.gov>.

WHERE CAN I FIND INFORMATION ABOUT THE APPROVAL OF THIS COLLECTION BY OMB?

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this information collection is 1870-0504. All documentation submitted to OMB about this information collection is available at https://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=201909-1870-001. Public reporting burden for this collection of information is estimated to average 13.9 hours per school survey response and 2.9 hours per local educational agency (LEA) survey response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The obligation to respond to this collection is *mandatory* (20 U.S.C. § 3413, § 3472, § 7913, and § 7914).

HOW ARE THE CRDC SURVEY ITEMS ORGANIZED?

The CRDC survey contains school-level and LEA-level items. The school-level items are presented in the CRDC School Form, while the LEA-level items are presented in the CRDC LEA Form. Each Form is organized by topical modules. Modules are groups of tables about the same topic area. For example, tables about mathematics, science, and computer science courses and classes form the Courses & Classes module. Each module has a 4-letter module acronym, which is used to number tables within modules. For example, the first table in the Courses & Classes module is labeled COUR-1a.

DIND: COVID-related Directional Indicators

The coronavirus pandemic has affected the way many schools provide instruction to students. To help OCR understand the school's responses to this survey, and to help guide you to the CRDC items that apply to the school, OCR has added new directional indicators to this form.

DIND-1. Directional Indicator – Instruction Type

(For all schools and justice facilities, preschool-grade 12, ungraded)

Please select the option that best describes the effect of the coronavirus pandemic on instruction during the 2020–21 school year at this school.

- A. We offered only in-person instruction with additional safety precautions because of the coronavirus pandemic.
- B. We offered only virtual instruction because of the coronavirus pandemic.
- C. We offered a hybrid of in-person and virtual instruction (e.g., some students received in-person instruction while others received virtual instruction; all students received virtual instruction during the first school semester, but during the second semester, some students received virtual instruction while others received in-person instruction) because of the coronavirus pandemic.
- D. There was no effect on the instruction we offered because of the coronavirus pandemic.

DIND-2. Directional Indicator – Virtual Instruction

(For schools and justice facilities that offered virtual instruction only or a hybrid of in-person and virtual instruction)

Which of the following best describes your virtual instruction setting?

- A. Students were physically in the school setting, while teachers, who provided these students virtual instruction, were in a remote location.
- B. Students were not physically in the school setting (e.g., students were at home or another remote location).
- C. A and B.

SCHR: School Characteristics

Module Instructions

DATES

Report data from the 2020–21 school year. The data reported should be based on a "Fall snapshot" of data from October 1 (or the closest school day to October 1). LEAs should use the same Fall snapshot date to report data in this module.

WHEN to REPORT ZERO (0) and WHEN to USE BLANKS (i.e., NULL VALUES)

Zeros represent an actual count or number for fields that are applicable to a given school or LEA. Do not report a "0" for data not collected. The submission of a blank (i.e., null) value should be used when the amount asked for in the question is unknown, if the data are not collected, or if the data do not apply to the LEA.

NOT APPLICABLE (NA) and ZERO (0) FILLS IN TABLES

The online tool remembers information that has been entered in other tables and modules and uses that information to fill related tables with either a Not Applicable (NA) code or zero (0) where appropriate. For example, if it is reported that a school does not have any females who are English learners (EL), then other tables that ask for counts of females who are EL will be automatically filled with a zero.

KEY DEFINITIONS

Alternative school is a public elementary or secondary school that addresses the needs of students that typically cannot be met in a regular school program and is designed to meet the needs of students with academic difficulties, students with discipline problems, or both students with academic difficulties and discipline problems. Alternative education schools may be sited in locations other than a traditional school building such as hospitals, mental health centers, jails, or juvenile detention centers.

Charter school is a public school that provides free public elementary and/or secondary education to eligible students under a specific charter executed, pursuant to a state charter school law, by an authorized chartering agency/authority and that is designated by such authority to be a public charter school.

Magnet program or school: A magnet program is a program within a public school that offers a special curriculum capable of attracting substantial numbers of students of different racial/ethnic backgrounds, which may also reduce, prevent, or eliminate minority group isolation. The program may be designed to provide an academic or social focus on a particular theme (e.g., science/math, performing arts, gifted/talented, or foreign language). A public school is considered a magnet school if it operates a magnet program for all students or some students within the school.

School is an organization authorized by public authority and financed primarily through public funds to provide public education to students. Under this definition, a school: (1) is operated by a public school district, independent charter district or state agency on behalf of the state (or federal government in the case of Bureau of Indian Education and Department of Defense schools); (2) provides instruction for students; (3) has, will have or had one or more students; (4) has, will have or had one or more teachers; (5) has an assigned administrator(s) (principal) responsible to public authority; and (6) receives public funds as its primary support. For purposes of this definition, "public funds" includes federal, state, and local public funds. Schools include public schools that provide half day (50%) or more educational services. Schools may include: alternative; career and technical education; charter; magnet; regular; and/or special education schools.

Preschool refers to preschool programs and services for children ages 3 through 5.

Special education school is a public elementary or secondary school that focuses primarily on serving the educational needs of students with disabilities under IDEA or section 504 of the Rehabilitation Act.

Ungraded (UG) refers to a class that is not organized on the basis of age or grade grouping and has no standard grade designation.

SCHR-1. Grades with Students Enrolled*

All schools and justice facilities

Items noted with an asterisk "" reflect guiding questions. Answers to these questions determine whether a school is presented with subsequent items.*

Instructions

- Students must be counted in the school where they physically and/or virtually attend for more than 50% of the school day.
- Check [ungraded](#) if that applies. You may check grades and also check ungraded if some students are classified by grade and others are not.

For the [Fall 2020 snapshot date](#), indicate whether this school had at least one student enrolled in each grade in the table. Please select "Yes" or "No" for each grade.

SCHR-2. Ungraded Detail

Only for schools and justice facilities that are wholly ungraded

Instructions

- The information you provide in this table will reduce the number of tables you need to fill out by allowing us to ask you only for information that is most relevant to the students in your school.
- If the school had a combination of mainly middle and high school students or mainly elementary and middle school students, mark "Yes" for both grade levels.
- If the school had about equal amounts of students in all grades, mark "Yes" for all three.

For the [Fall 2020 snapshot date](#), indicate whether the ungraded school had mainly elementary, middle, or high school-age students.

	Permitted Values: Yes (Mainly) or No (Just a few or none)
School had mainly elementary school age students? (about ages 3-10)

School had mainly middle school age students? (about ages 11-13)	
School had mainly high school age students? (about ages 14 or older)	

SCHR-3. School Characteristics*

All schools and justice facilities, preschool-grade 12, UG

Instructions

- For magnet schools and programs, count only programs or schools that have a written mission statement with the explicit aim of preventing minority group isolation.

For the **Fall 2020 snapshot date**, indicate whether this school can be characterized as one of the following types of school. Please select "Yes" or "No" for each option.

	Permitted Values: Yes or No
Is this school a special education school ?	
Is this school either a magnet school or a school operating a magnet program within the school?	
Is this school a charter school ?	
Is this school an alternative school ?	

SCHR-4. Magnet School Detail Only for magnet schools

Instructions

- Count only programs or magnet schools that have a written mission statement with the explicit aim of preventing minority group isolation.

For the **Fall 2020 snapshot date**, was the entire school population participating in the [magnet program](#) at your school?

	Permitted Values: Yes or No
Please select "Yes" or "No."	

SCHR-5. Alternative School Detail Only for alternative schools

Instructions

- If a school serves both students with academic difficulties and students with discipline problems, select "Both".

For the **Fall 2020 snapshot date**, indicate the type(s) of students the [alternative school](#) served.

	Permitted Values: Academic, Discipline, or Both
Please select "Academic," "Discipline," or "Both."	

Items noted with an asterisk "*" reflect guiding questions. Answers to these questions determine whether a school is presented with subsequent items.

KEY DEFINITIONS

English learner students (EL)[‡]: In coordination with the state's definition based on section 8101(20) of ESEA, as amended by ESSA, the term 'English learner,' when used with respect to an individual, means an individual:

- (A) who is aged 3 through 21;
- (B) who is enrolled or preparing to enroll in an elementary school or a secondary school;
- (C) (who is i, ii, or iii)
 - (i) who was not born in the United States or whose native languages are languages other than English;
 - (ii) (who is I and II)
 - (I) who is a Native American or Alaska Native, or a native resident of the outlying areas; and
 - (II) who comes from an environment where a language other than English has had a significant impact on the individual's level of English language proficiency; or
 - (iii) who is migratory, whose native language is a language other than English, and who comes from an environment where a language other than English is dominant; and
- (D) whose difficulties in speaking, reading, writing, or understanding the English language may be sufficient to deny the individual
 - (i) the ability to meet the challenging state academic standards;
 - (ii) the ability to successfully achieve in classrooms where the language of instruction is English; or
 - (iii) the opportunity to participate fully in society.

Note - To be classified as an English learner, an individual must be A, B, C, and D. For C, an individual can be i, ii, or iii. If C-ii, the individual must be I and II. For D, an individual must be denied D-i, D- ii, or D-iii.

Non-IDEA includes children without disabilities and children with disabilities who are not served under the Individuals with Disabilities Education Act.

Preschool refers to preschool programs and services for children ages 3 through 5.

Students with disabilities (IDEA): Students with intellectual disabilities; hearing impairment, including deafness; speech or language impairment; visual impairment, including blindness; serious emotional disturbance; orthopedic impairment; autism; traumatic brain injury; developmental delay; other health impairment; specific learning disability; deaf-blindness; or multiple disabilities and who, by reason thereof, receive special education and related services under the Individuals with Disabilities Education Act (IDEA) according to an Individualized

[‡] English learner students were previously referred to as limited English proficient students, and include the same subgroup of students.

Items noted with an asterisk "*" reflect guiding questions. Answers to these questions determine whether a school is presented with subsequent items.

Education Program, Individual Family Service Plan, or service plan. The “Students with Disabilities (IDEA)” column in the survey items always refers to students with disabilities who receive special education and related services under IDEA.

PSCH-1. Preschool Enrollment

Only for schools offering preschool

Instructions

- Enter enrollment of children in preschool programs or services for children ages 3 through 5.
- Include children who are 2 years of age who are allowed to enroll in preschool at the start of the school year because they will turn 3 years of age sometime during the school year.
- For students with disabilities (IDEA), report data based on either the IDEA child count date or on October 1 (or the closest school day to October 1). For all other entries, report data based on October 1 (or the closest school day to October 1).

For the **Fall 2020 snapshot date**, enter the number of children enrolled in **preschool** (ages 3 to 5) programs and services.

SPECIAL INSTRUCTIONS

Students must be counted in the school where they physically and/or virtually attended for more than 50% of the school day. If a student attended two schools, each for exactly 50% of his or her school day, then count that student at their “home” or “primary” school, rather than at the school of a special program, such as a vocational program.

For distance education schools or virtual schools, students must be counted in the school from which they received more than 50% of their coursework.

KEY DEFINITIONS

English learner students (EL): In coordination with the state’s definition based on section 8101(20) of ESEA, as amended by ESSA, the term ‘English learner,’ when used with respect to an individual, means an individual:

(A) who is aged 3 through 21;

(B) who is enrolled or preparing to enroll in an elementary school or a secondary school;

(C) (who is i, ii, or iii)

(i) who was not born in the United States or whose native languages are languages other than English;

(ii) (who is I and II)

(I) who is a Native American or Alaska Native, or a native resident of the outlying areas; and

(II) who comes from an environment where a language other than English has had a significant impact on the individual’s level of English language proficiency; or

(iii) who is migratory, whose native language is a language other than English, and who comes from an environment where a language other than English is dominant; and

(D) whose difficulties in speaking, reading, writing, or understanding the English language may be sufficient to deny the individual

(i) the ability to meet the challenging state academic standards;

(ii) the ability to successfully achieve in classrooms where the language of instruction is English; or

(iii) the opportunity to participate fully in society.

Note - To be classified as an English learner, an individual must be A, B, C, and D. For C, an individual can be i, ii, or iii. If C-ii, the individual must be I and II. For D, an individual must be denied D-i, D- ii, or D-iii.

EL programs are English language instruction educational programs designed for EL students.

Student enrollment refers to the unduplicated count of students on the rolls of the school. The unduplicated count includes students both present and absent and excludes duplicate counts of students within a specific school

Items noted with an asterisk “” reflect guiding questions. Answers to these questions determine whether a school is presented with subsequent items.*

or students whose membership is reported by another school. Students should be counted in the school where they physically and/or virtually attend for more than 50% of the school day. For distance education, students must be counted in the school from which they receive more than 50% of their coursework.

Students with disabilities (IDEA): Students with intellectual disabilities; hearing impairment, including deafness; speech or language impairment; visual impairment, including blindness; serious emotional disturbance; orthopedic impairment; autism; traumatic brain injury; developmental delay; other health impairment; specific learning disability; deaf-blindness; or multiple disabilities and who, by reason thereof, receive special education and related services under the Individuals with Disabilities Education Act (IDEA) according to an Individualized Education Program, Individual Family Service Plan, or service plan. The “Students with Disabilities (IDEA)” column in the survey items always refers to students with disabilities who receive special education and related services under IDEA.

Students with disabilities (Section 504 only): Students with a disability, who receive related aids and services solely under Section 504 of the Rehabilitation Act of 1973, as amended, and not under the Individuals with Disabilities Education Act (IDEA). The “Section 504 only” column in the survey items always refers to students with disabilities who receive related aids and services under Section 504 of the Rehabilitation Act of 1973, as amended, and not under IDEA.

ENRL-1. Overall Student Enrollment*

All schools and justice facilities, preschool-grade 12, UG

Instructions

- Students must be counted in the school where they physically and/or virtually attend for more than 50% of the school day.
- For students with disabilities (IDEA), report data based on either the IDEA child count date or on October 1 (or the closest school day to October 1). For all other entries, report data based on October 1 (or the closest school day to October 1).

Note: Overall enrollment will also be used for skip logic within tables. For example, if a school reports zero male Asian students, then subsequent tables with the same reporting period will not require data to be entered for male Asian students.

For the [Fall 2020 snapshot date](#), enter overall [enrollment](#). Enter the number of students who were enrolled in [preschool](#) and grades K-12 (or the [ungraded](#) equivalent).

PENR: Program Enrollment (Gifted & Talented, Dual Enrollment)

Module Instructions

DATES

Report data from the 2020-21 school year. The data reported should be based on a "Fall snapshot" of data from October 1 (or the closest school day to October 1), unless otherwise noted. LEAs should use the same Fall snapshot date to report data in this module.

The count of students with disabilities (IDEA) may be based either on the Fall snapshot date or on the district's IDEA child count date.

WHEN to REPORT ZERO (0) and WHEN to USE BLANKS (i.e., NULL VALUES)

Zeros represent an actual count or number for fields that are applicable to a given school or LEA. Do not report a "0" for data not collected. The submission of a blank (i.e., null) value should be used when the amount asked for in the question is unknown, if the data are not collected, or if the data do not apply to the LEA.

NOT APPLICABLE (NA) and ZERO (0) FILLS IN TABLES

The online tool remembers information that has been entered in other tables and modules and uses that information to fill related tables with either a Not Applicable (NA) code or zero (0) where appropriate. For example, if it is reported that a school does not have any females who are EL, then other tables that ask for counts of females who are EL will be automatically filled with a zero.

KEY DEFINITIONS

Advanced Placement (AP) refers to a program, sponsored by the College Board, through which students may earn college credit and advanced college placement by successfully completing AP courses and standardized AP exams.

Dual enrollment/dual credit programs provide opportunities for high school students to take college-level courses offered by colleges, and earn concurrent credit toward a high school diploma and a college degree while still in high school. These programs are for high school-enrolled students who are academically prepared to enroll in college and are interested in taking on additional coursework. For example, students who want to study subjects not offered at their high school may seek supplemental education at colleges nearby. Dual enrollment/dual credit programs do not include the Advanced Placement (AP) program or the International Baccalaureate Diploma Programme.

Gifted and talented programs are programs during regular school hours that provide special educational opportunities including accelerated promotion through grades and classes and an enriched curriculum for students who are endowed with a high degree of mental ability or who demonstrate unusual physical coordination, creativity, interest, or talent.

International Baccalaureate (IB) Diploma Programme, sponsored by the International Baccalaureate Organization, is designed as an academically challenging and balanced program of education with final examinations that prepares students, usually aged 16 to 19, for success at university and life beyond.

PENR-1. Gifted and Talented Programs Indicator*

All schools and justice facilities, preschool-grade 12, UG

Instructions

- Indicate whether the school had any students enrolled in one or more gifted and talented programs.
- Include programs that provide special education opportunities including accelerated promotion through grades and classes and an enriched curriculum.
- Gifted and talented programs do not include the [Advanced Placement \(AP\) program](#) or the [International Baccalaureate Diploma Programme](#).

For the **Fall 2020 snapshot date**, did this school have any students who were enrolled in a **gifted and talented program** either in this school or another building?

Items noted with an asterisk "*" reflect guiding questions. Answers to these questions determine whether a school is presented with subsequent items.

	Permitted Values: Yes or No
Please select "Yes" or "No."	

PENR-2. Gifted and Talented Student Enrollment

Only for schools and justice facilities with any preschool-grade 12, UG students enrolled in gifted and talented programs

Instructions

- Gifted and talented programs do not include the [Advanced Placement \(AP\) program](#) or the [International Baccalaureate Diploma Programme](#).
- For students with disabilities (IDEA), report data based on either the IDEA child count date or on October 1 (or the closest school day to October 1). For all other entries, report data based on October 1 (or the closest school day to October 1).

For the **Fall 2020 snapshot date**, enter the number of students in **preschool** and in grades K-12 (or the **ungraded** equivalent) who were enrolled in **gifted and talented programs**.

COUR: Courses & Classes

Module Instructions

DATES

Report data from the 2020-21 school year. For most tables, the data reported should be based on a "Fall snapshot" of data from October 1 (or the closest school day to October 1), unless otherwise noted. LEAs should use the same Fall snapshot date to report data in this module.

The count of students (middle school and high school) who passed Algebra I should be those who passed by the end of the 2020-21 regular school year, not including intersession or summer.

For schools with block scheduling that allows a full-year course to be taken in one semester, the count reported should be based on the sum of a count taken on October 1 (or the closest school day to October 1) in the first block, and around March 1 in the second block.

WHEN to REPORT ZERO (0) and WHEN to USE BLANKS (i.e., NULL VALUES)

Zeros represent an actual count or number for fields that are applicable to a given school or LEA. Do not report a "0" for data not collected. The submission of a blank (i.e., null) value should be used when the amount asked for in the question is unknown, if the data are not collected, or if the data do not apply to the LEA.

NOT APPLICABLE (NA) and ZERO (0) FILLS IN TABLES

The online tool remembers information that has been entered in other tables and modules and uses that information to fill related tables with either a Not Applicable (NA) code or zero (0) where appropriate. For example, if it is reported that a school does not have any females who are EL, then other tables that ask for counts of females who are EL will be automatically filled with a zero.

SPECIAL INSTRUCTIONS

A course is considered a grouping of one or more classes covering the same content. A school may offer several different courses in a specific subject area. For example, Biology is considered a science course for the CRDC collection. A school may also offer several different Biology courses including Introductory Biology, Anatomy, Botany, Genetics, Zoology, or Microbiology.

A class (or section) refers to a specific group of students taking a course during a specified time. There may be one or more classes for each course offered at a school. For example, a school may have two classes of Biology I, one during second period and one during fourth period; and one class for Genetics, during fifth period. In this example, the school should report a total of three biology classes (two for Biology I and one for Genetics).

Report classes that cover the content of the course specified, even if the name of the course or class is different (example: Algebra I may be called Integrated Mathematics).

Do not include students scheduled to take a course, but not yet enrolled.

Independent study does not count as a class.

KEY DEFINITIONS

Advanced mathematics (college-preparatory) courses cover the following topics: trigonometry, trigonometry/algebra, trigonometry/analytic geometry, trigonometry/math analysis, analytic geometry, math analysis, math analysis/analytic geometry, probability and statistics, and precalculus.

- Trigonometry courses prepare students for eventual work in calculus, and typically include the following topics: trigonometric and circular functions; their inverses and graphs; relations among the parts of a triangle; trigonometric identities and equations; solutions of right and oblique triangles; and complex numbers.
- Analytic geometry courses include the study of the nature and intersection of lines and planes in space.
- Math analysis courses include the study of polynomial, logarithmic, exponential, and rational functions and their graphs; vectors; set theory; Boolean algebra and symbolic logic; mathematical induction; matrix algebra; sequences and series; and limits and continuity.

Items noted with an asterisk "" reflect guiding questions. Answers to these questions determine whether a school is presented with subsequent items.*

- Probability and statistics courses introduce the study of likely events and the analysis, interpretation, and presentation of quantitative data.
- Precalculus courses combine the study of trigonometry, elementary functions, analytic geometry, and math analysis topics as preparation for calculus.

Algebra I is a (college-preparatory) course that includes the study of properties and operations of the real number system; evaluating rational algebraic expressions; solving and graphing first degree equations and inequalities; translating word problems into equations; operations with and factoring of polynomials; and solving simple quadratic equations. Algebra I is a foundation course leading to higher-level mathematics courses, including Geometry and Algebra II.

Algebra II (college-preparatory) course topics typically include field properties and theorems; set theory; operations with rational and irrational expressions; factoring of rational expressions; in-depth study of linear equations and inequalities; quadratic equations; solving systems of linear and quadratic equations; graphing of constant, linear, and quadratic equations; properties of higher degree equations; and operations with rational and irrational exponents.

Biology (college-preparatory) courses are designed to provide information regarding the fundamental concepts of life and life processes. These courses include (but are not restricted to) such topics as cell structure and function, general plant and animal physiology, genetics, and taxonomy.

Calculus (college-preparatory) course topics include the study of derivatives, differentiation, integration, the definite and indefinite integral, and applications of calculus. Typically, students have previously attained knowledge of precalculus topics (some combination of trigonometry, elementary functions, analytic geometry, and math analysis).

Chemistry (college-preparatory) courses involve studying the composition, properties, and reactions of substances. These courses typically explore such concepts as the behaviors of solids, liquids, and gases; acid/base and oxidation/reduction reactions; and atomic structure. Chemical formulas and equations and nuclear reactions are also studied.

Computer science courses involve the study of computers and algorithmic processes, including their principles, hardware and software designs, applications, and their impact on society. They often include computer programming or coding as a tool to create things like software, applications, games, websites and electronics, managing large databases of information, legal and ethical issues involved in computer technology use, and network security. Computer science does not include using a computer to do everyday things, such as browsing the internet, use of tools like word processing, spreadsheets or presentation software, or using computers in the study and exploration of other subjects.

Geometry is a (college-preparatory) course that typically includes topics such as properties of plane and solid figures; deductive methods of reasoning and use of logic; geometry as an axiomatic system including the study of postulates, theorems, and formal proofs; concepts of congruence, similarity, parallelism, perpendicularity, and proportion; and rules of angle measurement in triangles. Geometry is considered a prerequisite for Algebra II.

Physics (college-preparatory) courses involve the study of the forces and laws of nature affecting matter, such as equilibrium, motion, momentum, and the relationships between matter and energy. The study of physics includes examination of sound, light, and magnetic and electric phenomena.

Single-sex academic class refers to an academic class in a co-educational school where only male or only female students are permitted to take the class. A class should be counted as a single-sex class only if it excludes students of one sex from enrolling or otherwise participating in that class because of their sex. A class is not considered single-sex so long as it is open to members of both sexes, even if students of only one sex, or a disproportionate number of students of one sex, enroll.

Teachers provide instruction, learning experiences, and care to students during a particular time period or in a given discipline. Teaching may be provided for students in a school classroom, in another location such as a home or hospital, and in other learning situations such as those involving co-curricular activities. It may also be provided through some other approved medium, such as television, radio, computer, the Internet, multimedia, telephone, and correspondence that is delivered inside or outside the classroom or in other teacher-student settings.

Teachers are staff whose activities are dealing directly with the interaction with students.

Items noted with an asterisk "" reflect guiding questions. Answers to these questions determine whether a school is presented with subsequent items.*

--**Teachers include:** Regular Classroom Teachers (teach Chemistry, English, mathematics, physical education, history, etc.); Special Education Teachers (teach special education classes to students with disabilities); General Elementary Teachers [teach self-contained classes in any of grades preschool–8 (i.e., teach the same class of students all or most of the day); team-teach (i.e., two or more teachers collaborate to teach multiple subjects to the same class of students); include preschool teachers and kindergarten teachers]; Vocational/Technical Education Teachers (teach typing, business, agriculture, life skills, home economics as well as any other vocational or technical classes); teaching principals, teaching school counselors, teaching librarians, teaching school nurses, or other teaching administrators [include any staff members who teach at least one regularly scheduled class per week (e.g., a librarian teaches a regularly scheduled class in mathematics once a week)]; teachers of ungraded students; Itinerant, Co-op, Traveling, and Satellite Teachers (teach at more than one school and may or may not be supervised by someone at your school); current Long-Term Substitute Teachers (currently filling the role of regular teachers for four or more continuous weeks); and other teachers who teach students in any of grades preschool–12.

--**Teachers exclude:** Adult Education and Postsecondary Teachers (teach only adult education or students beyond grade 12); Short-term Substitute Teachers (fill the role of regular or special education teachers for less than four continuous weeks); Student Teachers; Day Care Aides/Paraprofessionals; Teacher Aides/Paraprofessionals; and Librarians who teach only library skills or how to use the library.

A **certified teacher** is a teacher who has met all applicable state teacher certification requirements for a standard certificate. A certified teacher has a regular/standard certificate/license/endorsement issued by the state. A beginning teacher who has met the standard teacher education requirements is considered to have met state requirements even if he or she has not completed a state-required probationary period. A teacher working towards certification by way of alternative routes, or a teacher with an emergency, temporary, or provisional credential is not considered to have met state requirements.

COUR-1a. Grade 7/8 Algebra I Classes*

Only for schools and justice facilities with any grade 7-8, UG middle school age students

Instructions

- Report classes that cover the content of Algebra I outlined in the definition, even if the name of the course or class is not Algebra I.
- Independent study does not count as a class.
- For schools that use regular scheduling, the count should be based on October 1 (or the closest school day to October 1).
- For schools that use block scheduling that allows a full-year course to be taken in one semester, the count should be based on the sum of a count taken on October 1 (or the closest school day to October 1) in the first block, and around March 1 in the second block.

COUR-12. Single-Sex Academic Classes Indicator*

Only for co-educational schools and justice facilities, grades K-12, UG

Instructions

- Include only classes that exclude students of one sex from enrolling or otherwise participating in that class because of their sex.
- If the school has single-sex students who receive all of their academic instruction from one teacher in one classroom, then each academic subject area taught in the classroom is considered one **single-sex class**. For example, a co-educational elementary school that has male students who receive mathematics, science, reading/language arts and social studies instruction from one teacher in one classroom should consider each subject area a single-sex class.
- A physical education class is not considered an academic class.
- Independent study is not considered a single-sex class.

For the **Fall 2020 snapshot date**, did this school have any students enrolled in one or more single-sex academic classes?

	Permitted Values: Yes or No
Please select "Yes" or "No."

APIB: Advanced Placement (AP) & International Baccalaureate Diploma Programme (IB) Enrollment

Module Instructions

DATES

Report data from the 2020-21 school year. For most tables, the data reported should be based on a "Fall snapshot" of data from October 1 (or the closest school day to October 1), unless otherwise noted. LEAs should use the same Fall snapshot date to report data in this module.

For schools with block scheduling that allows a full-year course to be taken in one semester, the count reported should be based on the sum of a count taken on October 1 (or the closest school day to October 1) in the first block, and around March 1 in the second block.

WHEN to REPORT ZERO (0) and WHEN to USE BLANKS (i.e., NULL VALUES)

Zeros represent an actual count or number for fields that are applicable to a given school or LEA. Do not report a "0" for data not collected. The submission of a blank (i.e., null) value should be used when the amount asked for in the question is unknown, if the data are not collected, or if the data do not apply to the LEA.

NOT APPLICABLE (NA) and ZERO (0) FILLS IN TABLES

The online tool remembers information that has been entered in other tables and modules and uses that information to fill related tables with either a Not Applicable (NA) code or zero (0) where appropriate. For example, if it is reported that a school does not have any females who are EL, then other tables that ask for counts of females who are EL will be automatically filled with a zero.

SPECIAL INSTRUCTIONS

A course is considered a grouping of one or more classes covering the same content. A school may offer several different courses in a specific subject area. For example, Biology is considered a science course for the CRDC collection. A school may also offer several different Biology courses. For AP courses, the College Board publishes a list, available at <https://apstudents.collegeboard.org/course-index-page>.

A class (or section) refers to a specific group of students taking a course during a specified time. There may be one or more classes for each course offered at a school. For example, a school may have two classes of Biology I, one during second period and one during fourth period; and one class for Genetics, during fifth period. In this example, the school should report a total of three Biology classes (two for Biology I and one for Genetics).

Count each course separately. For example, AP Calculus AB and AP Calculus BC are different courses. But multiple classes in AP Calculus AB are not different courses.

Do not include students scheduled to take a course, but not yet enrolled.

KEY DEFINITIONS

Advanced Placement (AP) refers to a program, sponsored by the College Board, through which students may earn college credit and advanced college placement by successfully completing AP courses and standardized AP exams.

Advanced Placement (AP) course is an advanced, college-level course designed for students who achieve a specified level of academic performance. Upon successful completion of the course and a standardized AP exam, a student may be qualified to receive college credit and/or placement into advanced college courses.

International Baccalaureate (IB) Diploma Programme, sponsored by the International Baccalaureate Organization, is designed as an academically challenging and balanced program of education with final examinations that prepares students, usually aged 16 to 19, for success at university and life beyond. The Programme is typically taught over two years. IB Diploma Programme students study six courses at higher level or standard level. Students must choose one subject from each of groups 1 to 5, thus ensuring breadth of experience in languages, social studies, the experimental sciences and mathematics. The sixth subject may be an arts subject chosen from group 6, or the student may choose another subject from groups 1 to 5. Additionally, IB Diploma Programme

SPECIAL INSTRUCTIONS

Numbers of teachers and staff should be reported in full-time equivalency of assignment (FTE).

Include teachers and staff for preschool, grades K-12, and comparable ungraded levels, regardless of how staff were funded (i.e., federal, state, and/or local funds or funds from another entity).

FTE values should be entered as decimal numbers to the hundredths place (i.e., two decimal places; e.g., 4.00, 4.75).

KEY DEFINITIONS

A nurse is a qualified health care professional who addresses the health needs of students. The provider meets the state standards and requirements for a nurse. Nurses include school nurses.

A psychologist evaluates and analyzes students' behavior by measuring and interpreting their intellectual, emotional, and social development, and diagnosing their educational and personal problems. A psychologist may diagnose and treat mental disorders and learning disabilities. A psychologist may also diagnose and treat cognitive, behavioral, and emotional problems using individual, child, family, and group therapies. A psychologist is a licensed professional. Psychologists include school psychologists.

A school counselor is a professional staff member assigned specific duties and school time for any of the following activities: counseling with students and parents, consulting with other staff members on learning problems, evaluating student abilities, assisting students in making education and career choices, assisting students in personal and social development, providing referral assistance, and/or working with other staff members in planning and conducting guidance programs for students.

A social worker provides social services and assistance to improve the social and psychological functioning of children and their families and to maximize the family well-being and the academic functioning of the children. Typical responsibilities include: 1) preparing a social or developmental history on a student with disabilities; 2) group and individual counseling with a student and his or her family; 3) working with those problems in a student's living situation (home, school, and community) that affect adjustment in school; and 4) mobilizing school and community resources in order to enable the student to receive maximum benefit from his or her educational program. The provider of these services is certified, licensed, or otherwise a qualified professional. Social workers include school social workers.

Teachers provide instruction, learning experiences, and care to students during a particular time period or in a given discipline. Teaching may be provided for students in a school classroom, in another location such as a home or hospital, and in other learning situations such as those involving co-curricular activities. It may also be provided through some other approved medium, such as television, radio, computer, the Internet, multimedia, telephone, and correspondence that is delivered inside or outside the classroom or in other teacher-student settings. Teachers are staff whose activities are dealing directly with the interaction with students.

Items noted with an asterisk "" reflect guiding questions. Answers to these questions determine whether a school is presented with subsequent items.*

--**Teachers include:** Regular Classroom Teachers (teach Chemistry, English, mathematics, physical education, history, etc.); Special Education Teachers (teach special education classes to students with disabilities); General Elementary Teachers [teach self-contained classes in any of grades preschool–8 (i.e., teach the same class of students all or most of the day); team-teach (i.e., two or more teachers collaborate to teach multiple subjects to the same class of students); include preschool teachers and kindergarten teachers]; Vocational/Technical Education Teachers (teach typing, business, agriculture, life skills, home economics as well as any other vocational or technical classes); teaching principals, teaching school counselors, teaching librarians, teaching school nurses, or other teaching administrators [include any staff members who teach at least one regularly scheduled class per week (e.g., a librarian teaches a regularly scheduled class in mathematics once a week)]; teachers of ungraded students; Itinerant, Co-op, Traveling, and Satellite Teachers (teach at more than one school and may or may not be supervised by someone at your school); current Long-Term Substitute Teachers (currently filling the role of regular teachers for four or more continuous weeks); and other teachers who teach students in any of grades preschool–12.

--**Teachers exclude:** Adult Education and Postsecondary Teachers (teach only adult education or students beyond grade 12); Short-term Substitute Teachers (fill the role of regular or special education teachers for less than four continuous weeks); Student Teachers; Day Care Aides/Paraprofessionals; Teacher Aides/Paraprofessionals; and Librarians who teach only library skills or how to use the library.

A **certified teacher** is a teacher who has met all applicable state teacher certification requirements for a standard certificate. A certified teacher has a regular/standard certificate/license/endorsement issued by the state. A beginning teacher who has met the standard teacher education requirements is considered to have met state requirements even if he or she has not completed a state-required probationary period. A teacher working towards certification by way of alternative routes, or a teacher with an emergency, temporary, or provisional credential is not considered to have met state requirements.

Full-time equivalent (FTE) is a unit that indicates the workload of an employed person in a way that makes workloads comparable across various contexts. FTE is used to measure a worker's service in a place (e.g., school). FTE is the number of total hours the person is expected to work divided by the maximum number of compensable hours in a full-time schedule. An FTE of 1.00 means that the person is equivalent to a full-time worker; while an FTE of 0.50 signals that the worker is only half-time.

A security guard is an individual who guards, patrols, and/or monitors the school premises to prevent theft, violence, and/or infractions of rules. A security guard may provide protection to individuals, and may operate x-ray and metal detector equipment. A security guard is not a sworn law enforcement officer.

A sworn law enforcement officer is a career law enforcement officer, with arrest authority. A sworn law enforcement officer may be a school resource officer (who has specialized training and is assigned to work in collaboration with school organizations). A sworn law enforcement officer may be employed by any entity (e.g., police department, school district or school). An officer’s duties may include: motor vehicle traffic control; security enforcement and patrol; maintaining school discipline; coordinating with local police and emergency team(s); identifying problems in the school and proactively seeking solutions to those problems; training teachers and staff in school safety or crime prevention; mentoring students; teaching a law-related education course or training students (e.g., drug-related education, criminal law, or criminal prevention courses); recording or reporting discipline problems to school authorities; and providing information to school authorities about the legal definitions of behavior for recording or reporting purposes (e.g., definition assault for school authorities).

NOT APPLICABLE (NA) and ZERO (0) FILLS IN TABLES

The online tool remembers information that has been entered in other tables and modules and uses that information to fill related tables with either a Not Applicable (NA) code or zero (0) where appropriate. For example, if it is reported that a school does not have any females who are EL, then other tables that ask for counts of females who are EL will be automatically filled with a zero.

KEY DEFINITIONS

A student is retained if he or she is not promoted to the next grade prior to the beginning of the following school year. Students are not considered retained if they can proceed to the next grade because they successfully completed a summer school program or for a similar reason. At the high school level, a student who has not accumulated enough credits to be classified as being in the next grade is considered retained.

RETN-1: Student Retention Indicator*

Schools and justice facilities, grades K-12

Instructions

- Indicate whether the school had any students who were retained in any of the grades specified. Provide a response only for the grades that were reported as having at least one student enrolled in the SCHR-1 item.
- Report data based on the start of the regular school year up to one day prior to the start of the following regular school year.
- Respond yes if a student was not promoted to the next grade prior to the beginning of the 2021–22 school year.
- Do not count a student as retained if the student was able to proceed to the next grade because the student successfully completed a summer school program or for a similar reason.

For each grade listed in the table, indicate whether any students were **retained** at the end of the 2020–21 school year (not promoted to the next grade). Please select "Yes" or "No" in the table below.

ATHL-1: Single-Sex Interscholastic Athletics Indicator*

Only for schools with any grade 9-12, UG high school age students

Instructions

- Report data based on the start of the regular school year up to one day prior to the start of the following regular school year.
- Include only interscholastic athletics in which only males or only females participate.
- Include all students who participated (in-person or virtually) in male only or female only interscholastic athletics, beginning from the start of the 2020–21 school year, up to one day before the start of the 2021–22 school year.
- Student participation may include participation in practices, games, or both.

From the start of the 2020–21 school year, including summer, up to one day prior to the 2021–22 school year, did this school have any students in grades 9-12 (or the [ungraded](#) equivalent) who participated in [male only or female only interscholastic athletics](#)?

	Permitted Values: Yes or No
Please select “Yes” or “No.”	

Items noted with an asterisk “*” reflect guiding questions. Answers to these questions determine whether a school is presented with subsequent items.

ATHL-2: Single-Sex Interscholastic Athletics Sports, Teams, and Participants

Only for schools with any grade 9-12, UG high school age students who participate in single-sex interscholastic athletics

- Interscholastic athletics sports refers to distinct sports, such as football, basketball, soccer, swimming, and tennis. Intramural sports and sideline cheerleading are not considered interscholastic athletics sports.
- Interscholastic athletics sports teams refers to the competitive-level teams of each interscholastic athletics sport, such as freshman team, junior varsity team, and varsity team.
- Interscholastic athletics sports team participant refers to a student who participates in an interscholastic athletics sports team (e.g., a student who participates in a freshman soccer team).

Instructions

- Enter the number of single-sex interscholastic athletics sports for students in grades 9-12, as specified. Include sports for ungraded high school age students in the count.
- Enter the number of single-sex interscholastic athletics teams for students in grades 9-12, as specified. Include teams for ungraded high school age students in the count.
- Enter the number of students in grades 9-12 who participated (in-person or virtually) on single-sex interscholastic athletics sports teams. Include ungraded high school age students in the count.
- Count only high school-level interscholastic athletics sports, teams, and participants on teams in which only male or only female students participate.
- The count of interscholastic athletics sports includes only distinct sports.
- The count of interscholastic athletics sports teams includes each competitive-level team in each sport (e.g., football freshman team, football junior varsity team, football varsity team; baseball freshman team, baseball junior varsity team, baseball varsity team).
- A student should be counted multiple times for each team he or she participated on (e.g., a female student who participated on the female basketball junior varsity team and the female soccer varsity team would be counted twice).
- Student participation may include participation in practices, games, or both.

From the start of the 2020–21 school year, including summer, up to one day prior to the 2021–22 school year, enter the number of active interscholastic sports and teams that were male only or female only and the number of students in grades 9-12 (or the ungraded equivalent) who participated in those sports and teams.

	Male Only	Female Only	Total

DISC: Student Discipline (Suspension, Expulsion, Corporal Punishment)

Module Instructions

DATES

Report a cumulative count based on the entire 2020–21 regular school year, not including intersession or summer.

WHEN to REPORT ZERO (0) and WHEN to USE BLANKS (i.e., NULL VALUES)

Zeros represent an actual count or number for fields that are applicable to a given school or LEA. Do not report a “0” for data not collected. The submission of a blank (i.e., null) value should be used when the amount asked for in the question is unknown, if the data are not collected, or if the data do not apply to the LEA.

NOT APPLICABLE (NA) and ZERO (0) FILLS IN TABLES

The online tool remembers information that has been entered in other tables and modules and uses that information to fill related tables with either a Not Applicable (NA) code or zero (0) where appropriate. For example, if it is reported that a school does not have any females who are EL, then other tables that ask for counts of females who are EL will be automatically filled with a zero.

SPECIAL INSTRUCTIONS

*For schools that report offering virtual instruction only (Option B for DIND-1) **AND** describe the virtual instruction setting as having students that were not physically in the school setting (Option B for DIND-2), then the corporal punishment items in the Student Discipline module do not apply.*

Students cannot be counted in both the “only one” and “more than one” tables for a particular violation or disciplinary action, but they can be counted multiple times for different violations or disciplinary actions. For example, a student cannot be counted in the “only one out-of-school suspension” and “more than one out-of-school suspension” tables. However, a student can be counted in both an “out-of-school suspension” table and an “expulsion” table.

For justice facilities, only the following discipline categories apply: corporal punishment, out-of-school suspension, expulsion without education services, and expulsion under zero tolerance policies.

KEY DEFINITIONS (PRESCHOOL AND GRADES K-12)

Corporal punishment refers to paddling, spanking, or other forms of physical punishment imposed on a child.

Out-of-school suspension

--For students with disabilities served under IDEA: Out-of-school suspension is an instance in which a child is temporarily removed from his/her regular school (in-person or virtual setting) for at least half a day for disciplinary purposes to another setting (e.g., home, behavior center). Out-of-school suspensions include both removals in which no individualized family service plan (IFSP) or individualized education plan (IEP) services are provided because the removal is 10 days or less as well as removals in which the child continues to receive services according to his/her IFSP or IEP.

--For students without disabilities and students with disabilities served solely under Section 504 of the Rehabilitation Act: Out-of-school suspension is an instance in which a child is temporarily removed from his/her regular school (in-person or virtual setting) for at least half a day (but less than the remainder of the school year) for disciplinary purposes to another setting (e.g., home, behavior center). Out-of-school suspensions include removals in which no educational services are provided, and removals in which educational services are provided (e.g., school-provided at home instruction or tutoring).

KEY DEFINITIONS (PRESCHOOL ONLY)

Preschool refers to preschool programs and services for children ages 3 through 5.

Preschool expulsion refers to the permanent termination of a preschool child’s participation in a preschool program at a school or facility (in-person or virtual setting) for disciplinary purposes. A preschool child who is transitioned directly from the classroom (in-person or virtual setting) to a different setting deemed to be more appropriate for the child (e.g., special education, transitional classroom, or therapeutic preschool program) is not considered an expelled preschooler.

Items noted with an asterisk “” reflect guiding questions. Answers to these questions determine whether a school is presented with subsequent items.*

KEY DEFINITIONS (GRADES K-12 ONLY)

Alternative school is a public elementary or secondary school that addresses the needs of students that typically cannot be met in a regular school program, and is designed to meet the needs of students with academic difficulties, students with discipline problems, or both students with academic difficulties and discipline problems.

In-school suspension is an instance in which a child is temporarily removed from his or her regular classroom(s) for at least half a day for disciplinary purposes, but remains under the direct supervision of school personnel. Direct supervision means school personnel are physically in the same location as students under their supervision.

Expulsion with educational services refers to an action taken by the local educational agency of removing a child from his/her regular school (in-person or virtual setting) for disciplinary purposes, and providing educational services to the child (e.g., school-provided at home instruction or tutoring; transfer to an alternative school) for the remainder of the school year (or longer) in accordance with local educational agency policy. Expulsion with educational services also includes removals resulting from violations of the Gun Free Schools Act that are modified to less than 365 days.

Expulsion without educational services refers to an action taken by the local educational agency of removing a child from his/her regular school (in-person or virtual setting) for disciplinary purposes, and not providing educational services to the child for the remainder of the school year or longer in accordance with local educational agency policy. Expulsion without services also includes removals resulting from violations of the Gun Free Schools Act that are modified to less than 365 days.

Expulsion under zero tolerance policies refers to an action taken by the local educational agency of removing a child from his/her regular school (in-person or virtual setting) for the remainder of the school year or longer because of zero-tolerance policies. A zero tolerance policy is a policy that results in mandatory expulsion of any student who commits one or more specified offenses (e.g., offenses involving guns, or other weapons, or violence, or similar factors, or combinations of these factors). A policy is considered “zero tolerance” even if there are some exceptions to the mandatory aspect of the expulsion, such as allowing the chief administering officer of a local educational agency to modify the expulsion on a case-by-case basis.

DISC-1a: Preschool Suspensions and Expulsions - One or More Out-of-School Suspension(s)

NEW! REQUIRED FOR 2020-21

Only for schools reporting greater than zero preschool enrollment

Instructions

- A preschool child may be counted in both the "out-of-school suspension" table and the "expulsion" table.

For the regular 2020–21 school year, not including intersession or summer, enter the number of preschool children who received one or more preschool out-of-school suspension(s).

	Hispanic or Latino of any race	American Indian or Alaska Native	Asian	Native Hawaiian or Other Pacific Islander	Black or African American	White	Two or more races	Total	English Learners (EL)	Students with Disabilities (IDEA)
Male preschool children who received one or more out-of-school suspension(s):										
Female preschool children who received one or more out-of-school suspension(s):										
Total number of preschool children who received one or more out-of-school suspension(s):										

Items noted with an asterisk "*" reflect guiding questions. Answers to these questions determine whether a school is presented with subsequent items.

DISC-1b: Preschool Suspensions and Expulsions - Expulsions

Only for schools reporting greater than zero preschool enrollment

Instructions

- A preschool child may be counted in both the "out-of-school suspension" table and the "expulsion" table.
- The definition of preschool expulsion differs from the definition of K-12 expulsion.

For the regular 2020–21 school year, not including intersession or summer, enter the number of [preschool](#) children who received an [expulsion](#).

	Hispanic or Latino of any race	American Indian or Alaska Native	Asian	Native Hawaiian or Other Pacific Islander	Black or African American	White	Two or more races	Total	English Learners (EL)	Students with Disabilities (IDEA)
Male preschool children who received an expulsion:										
Female preschool children who received an expulsion:										
Total number of preschool children who received an expulsion:										

DISC-2: Preschool Instances of Suspension

Only for schools reporting greater than zero preschool enrollment, and greater than zero preschool children suspended

Instructions

- Report the number of instances of out-of-school suspensions, not the number of children who received out-of-school suspensions.
- For a preschool child who receives multiple out-of-school suspensions, each out-of-school suspension occurrence should be counted as an instance of out-of-school suspension.
- An instance refers to a disciplinary occurrence. For example, for a child who receives a one-day out-of-school suspension in the fall, and a three-day out-of-school suspension in the spring, the out-of-school suspensions would be considered two instances.

For the regular 2020–21 school year, not including intersession or summer, enter the number of instances of [out-of-school suspension](#) for all [preschool](#) children and for preschool [children with disabilities \(IDEA\)](#).

	All Preschool Children	Preschool Children with Disabilities (IDEA)
Number of instances of out-of-school suspension		

DISC-3: Corporal Punishment Indicator*

All schools and justice facilities, preschool-grade 12, UG

Items noted with an asterisk "*" reflect guiding questions. Answers to these questions determine whether a school is presented with subsequent items.

During the regular 2020–21 school year, not including intersession or summer, did this school use [corporal punishment](#) to discipline students in [preschool](#) and/or grades K-12 (or the [ungraded equivalent](#))?

	Permitted Values: Yes or No
Please select "Yes" or "No."	

DISC-4: Preschool Corporal Punishment

Only for schools reporting greater than zero preschool enrollment, and having children who receive corporal punishment for disciplinary purposes

For the regular 2020–21 school year, not including intersession or summer, enter the number of [preschool](#) children who received [corporal punishment](#).

	Hispanic or Latino of any race	American Indian or Alaska Native	Asian	Native Hawaiian or Other Pacific Islander	Black or African American	White	Two or more races	Total	English Learners (EL)	Students with Disabilities (IDEA)
Male preschool children who received corporal punishment:										
Female preschool children who received corporal punishment:										
Total number of preschool children who received corporal punishment:										

DISC-5: Preschool Instances of Corporal Punishment

Only for schools reporting greater than zero preschool enrollment, and having children who receive corporal punishment for disciplinary purposes

Instructions

- Report the number of instances of corporal punishment, not the number of children who received corporal punishment.
- An instance refers to a disciplinary occurrence.
- For a preschool child who receives multiple corporal punishment sessions, each corporal punishment session should be counted as an instance of corporal punishment. For example, for a child who receives corporal punishment one time in the fall, and corporal punishment one time in the spring, the corporal punishment would be considered two instances.

For the regular 2020–21 school year, not including intersession or summer, enter the number of instances of [corporal punishment](#) for all [preschool](#) children and for preschool [children with disabilities \(IDEA\)](#).

	All Preschool Children	Preschool Children with Disabilities (IDEA)
Number of instances of corporal punishment		

Items noted with an asterisk "*" reflect guiding questions. Answers to these questions determine whether a school is presented with subsequent items.

DISC-6: Instances of Corporal Punishment

Only for schools and justice facilities (grades K-12, UG) reporting having students who receive corporal punishment for disciplinary purposes

- Student with disabilities refers to students with disabilities served under the Individuals with Disabilities Education Act, Section 504 of the Rehabilitation Act of 1973, or both.

Instructions

- Report the number of instances of corporal punishment, not the number of children who received corporal punishment.
- An instance refers to a disciplinary occurrence.
- For a student who receives multiple corporal punishment sessions, each corporal punishment session should be counted as an instance of corporal punishment. For example, for a student who receives corporal punishment one time in the fall, and corporal punishment one time in the spring, the corporal punishment would be considered two instances.

For the regular 2020–21 school year, not including intersession or summer, enter the number of instances of **corporal punishment** for students without disabilities in grades K-12 (or the **ungraded equivalent**) and the number of instances of corporal punishment for students with disabilities (IDEA and Section 504 Only).

	Students without Disabilities	Students with Disabilities
Number of instances of corporal punishment		

DISC-7a: Discipline of Students without Disabilities - Corporal Punishment

Schools and justice facilities, grades K-12, UG

Note: For justice facilities, only the following discipline categories apply: corporal punishment, out-of-school suspension, expulsion without educational services, and expulsion under zero tolerance policies.

Instructions

DISC-7b: Discipline of Students without Disabilities - In-School Suspensions

Schools, grades K-12, UG

Instructions

- Report the number of students receiving one or more in-school suspensions, not the instances of in-school suspension.
- Because of the coronavirus pandemic, a “regular classroom” may be a physical school setting or a virtual setting where virtual learning takes place. Also, “direct supervision” refers to school personnel who are in the same physical school setting or virtual setting as students under their supervision.
- For in-school suspensions of students who are learning remotely, count students who are temporarily blocked from their typical virtual classroom(s), and are transitioned to another supervised virtual setting.

For the regular 2020–21 school year, not including intersession or summer, enter the number of students without disabilities in grades K-12 (or the ungraded equivalent) who received one or more in-school suspensions.

OFFN: Offenses

Module Instructions

DATES

Report a cumulative count based on the entire 2020–21 regular school year, not including intersession or summer.

WHEN to REPORT ZERO (0) and WHEN to USE BLANKS (i.e., NULL VALUES)

Zeros represent an actual count or number for fields that are applicable to a given school or LEA. Do not report a “0” for data not collected. The submission of a blank (i.e., null) value should be used when the amount asked for in the question is unknown, if the data are not collected, or if the data do not apply to the LEA.

NOT APPLICABLE (NA) and ZERO (0) FILLS IN TABLES

The online tool remembers information that has been entered in other tables and modules and uses that information to fill related tables with either a Not Applicable (NA) code or zero (0) where appropriate. For example, if it is reported that a school does not have any females who are EL, then other tables that ask for counts of females who are EL will be automatically filled with a zero.

SPECIAL INSTRUCTIONS

Count incidents that occurred before, during, or after normal school hours.

Incidents that could be classified in multiple categories should be reported in the most egregious category.

Allegations can be reported by anyone (e.g., alleged victim; parents of alleged victim). Alleged victims can be students or non-students.

KEY DEFINITIONS

An allegation is a claim or assertion that someone has done something wrong or illegal, typically made without proof.

Firearm or explosive device refers to any weapon that is designed to (or may readily be converted to) expel a projectile by the action of an explosive. This includes guns, bombs, grenades, mines, rockets, missiles, pipe bombs, or similar devices designed to explode and capable of causing bodily harm or property damage.

An incident refers to a specific criminal act involving one or more victims and offenders. For example, if two students are robbed without a weapon, at the same time and place, then this is classified as two robbery victimizations but only one robbery without a weapon incident.

Physical attack or fight refers to an actual and intentional touching or striking of another person against his/her will, or the intentional causing of bodily harm to an individual. Physical attack or fight does not include rape.

Rape refers to forced sexual intercourse (vaginal, anal, or oral penetration). This includes sodomy and penetration with a foreign object. Both male and female students can be victims of rape. Rape is not defined as a physical attack or fight.

Robbery is taking or attempting to take anything of value that is owned by another person or organization, under confrontational circumstances by force or threat of force or violence and/or by putting the victim in fear. A key difference between robbery and theft/larceny is that robbery involves a threat or assault.

Sexual assault is an incident that includes threatened rape, fondling, indecent liberties, or child molestation. Both male and female students can be victims of sexual assault. Classification of these incidents should take into consideration the age and developmentally appropriate behavior of the offender(s).

Termination refers to the act of an employer discontinuing a school staff member’s employment permanently. Terminations are involuntary and are initiated by the employer, including layoffs with no intent to rehire, and firings or other discharges for cause.

A threat refers to an act where there was no physical contact between the offender and victim, but the victim felt that physical harm could have occurred based on verbal or nonverbal communication by the offender. This includes nonverbal threats (e.g., brandishing a weapon), and verbal threats of physical harm which are made in person. Threats made over the telephone or threatening letters are excluded.

Items noted with an asterisk “” reflect guiding questions. Answers to these questions determine whether a school is presented with subsequent items.*

A threat of physical attack with a weapon includes displaying, brandishing, or discharging a weapon, but with no actual physical contact of any person. A threat is made in person. Threats made over the telephone or threatening letters are excluded. A threat of physical attack using words that refer to a weapon would not be considered a threat with a weapon.

A threat of physical attack without a weapon refers to a threat without any display, brandishment, or discharge of a weapon, and with no actual physical contact of any person. A threat is made in person. Threats made over the telephone or threatening letters are excluded. A threat of physical attack using words that refer to a weapon would be considered a threat without a weapon.

A weapon is any instrument or object used with the intent to threaten, injure, or kill. This includes look-alikes if they are used to threaten others.

HIBS: Harassment or Bullying

Module Instructions

DATES

Report a cumulative count based on the entire 2020–21 regular school year, not including intersession or summer.

WHEN to REPORT ZERO (0) and WHEN to USE BLANKS (i.e., NULL VALUES)

Zeros represent an actual count or number for fields that are applicable to a given school or LEA. Do not report a “0” for data not collected. The submission of a blank (i.e., null) value should be used when the amount asked for in the question is unknown, if the data are not collected, or if the data do not apply to the LEA.

NOT APPLICABLE (NA) and ZERO (0) FILLS IN TABLES

The online tool remembers information that has been entered in other tables and modules and uses that information to fill related tables with either a Not Applicable (NA) code or zero (0) where appropriate. For example, if it is reported that a school does not have any females who are EL, then other tables that ask for counts of females who are EL will be automatically filled with a zero.

SPECIAL INSTRUCTIONS

Allegations can be reported by anyone (e.g., alleged victim; parents of alleged victim). The harassment or bullying can be carried out by students, school employees, or non-employee third parties. Alleged victims must be students.

School employees in this Harassment or Bullying module includes volunteers and third parties who are contracted to provide services for the school. The definition for “school employees” in this module is the same as the definition of “school staff” in the Offenses module. Include allegations or reports of harassment or bullying made to school employees, including reports made to volunteers and third parties who are contracted to provide services for the school.

Harassing conduct in the form of verbal or non-verbal actions may include the use of portable (e.g., cell phone) or non-portable (e.g., desktop computer) devices that may be used to access the Internet.

In classifying the allegations and cases of harassment/bullying, look to the likely motives of the alleged harasser/bully, and not the actual status of the alleged victim. In classifying the disciplined students, look to their likely motives, and not the actual status of the alleged victims.

KEY DEFINITIONS

An allegation is a claim or assertion that someone has done something wrong or illegal, typically made without proof.

Harassment or bullying on the basis of sex includes sexual harassment and harassment or bullying based on sex stereotyping. Sexual harassment is unwelcome conduct of a sexual nature, such as unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature. Harassment or bullying based on sex stereotyping includes acts of verbal, nonverbal, or physical aggression, intimidation, or hostility based on sex or sex stereotyping, but not involving conduct of a sexual nature. Harassing conduct may take many forms, including verbal acts and name-calling, as well as non-verbal behavior, such as graphic and written statements, or conduct that is physically threatening, harmful or humiliating. The conduct can be carried out by school employees, other students, and non-employee third parties. All students can be victims of harassment or bullying on the basis of sex, and the harasser or bully and the victim can be of the same sex. Bullying on the basis of sex constitutes sexual harassment.

Harassment or bullying on the basis of race, color, or national origin refers to intimidation or abusive behavior toward a student based on actual or perceived race, color or national origin (including ancestry and ethnicity). Harassing conduct may take many forms, including verbal acts and name-calling, as well as non-verbal behavior, such as graphic and written statements, or conduct that is physically threatening, harmful or humiliating. The conduct can be carried out by school employees, other students, and non-employee third parties. Bullying on the basis of race, color, or national origin constitutes racial harassment.

Items noted with an asterisk “” reflect guiding questions. Answers to these questions determine whether a school is presented with subsequent items.*

Harassment or bullying on the basis of disability refers to intimidation or abusive behavior toward a student based on actual or perceived disability. Harassing conduct may take many forms, including verbal acts and name-calling, as well as non-verbal behavior, such as graphic and written statements, or conduct that is physically threatening, harmful or humiliating. The conduct can be carried out by school employees, other students, and non-employee third parties. Bullying on the basis of disability constitutes disability harassment.

School employees include volunteers and third parties who are contracted to provide services for the school.

HIBS-1a: Allegations of Harassment or Bullying - Sex, Race, Color, National Origin, and Disability

Schools and justice facilities, grades K-12, UG

Instructions

- Count an allegation only once, even if it involves more than one student. A student may be counted more than once in the table if the student makes more than one allegation of harassment or bullying.
- An allegation that involves multiple categories should be counted in each applicable category. For example, an allegation that involves both sex and disability should be reported in both the sex count and the disability count.
- In classifying the allegations, use the likely motives of the alleged harasser, and not the actual characteristics of the alleged victim.

For the regular 2020–21 school year, not including intersession or summer, enter the number of allegations of harassment or bullying reported by students in grades K-12 (or the ungraded equivalent) to any school employees. Report allegations on the basis of sex; race, color, or national origin; and disability.

HIBS-1b: Allegations of Harassment or Bullying - Sexual Orientation and Religion

Schools and justice facilities, grades K-12, UG

- Harassment or bullying on the basis of religion refers to intimidation or abusive behavior toward a student based on actual or perceived religion. Harassing conduct may take many forms, including verbal acts and name-calling, as well as non-verbal behavior, such as graphic and written statements, or conduct that is physically threatening, harmful or humiliating. The conduct can be carried out by school employees, other students, and non-employee third parties. Bullying on the basis of religion constitutes religious harassment.
- Harassment or bullying on the basis of sexual orientation refers to intimidation or abusive behavior toward a student based on actual or perceived sexual orientation. Harassing conduct may take many forms, including verbal acts and name-calling, as well as non-verbal behavior, such as graphic and written statements, or conduct that is physically threatening, harmful or humiliating. The conduct can be carried out by school employees, other students, and non-employee third parties. Bullying on the basis of sexual orientation constitutes sexual orientation harassment.

Instructions

- Count an allegation only once, even if it involves more than one student. A student may be counted more than once in the table if the student makes more than one allegation of harassment or bullying.

Items noted with an asterisk "*" reflect guiding questions. Answers to these questions determine whether a school is presented with subsequent items.

- An allegation that involves multiple categories should be counted in each applicable category. For example, an allegation that involves both sexual orientation and religion should be reported in both the sexual orientation count and the religion count.

Schools and justice facilities, grades K-12, UG

- Harassment or bullying on the basis of religion refers to intimidation or abusive behavior toward a student based on actual or perceived religion. Harassing conduct may take many forms, including verbal acts and name-calling, as well as non-verbal behavior, such as graphic and written statements, or conduct that is physically threatening, harmful or humiliating. The conduct can be carried out by school employees, other students, and non-employee third parties. Bullying on the basis of religion constitutes religious harassment.
 - Agnostic refers to a person who believes that the existence or nature of an ultimate reality, such as a deity, is unknown, and probably unknowable.
 - Atheist refers to a person who does not believe in the existence of a deity.
 - Buddhist refers to a person who follows the religion of eastern or central Asia that grew out of the teaching of Siddhartha Gautama, the Buddha, or Enlightened One. People of this faith believe that suffering is inherent in life and that one can be liberated from it by mental and moral self-purification by following the Four Noble Truths and the Eightfold Path in order to reach *nirvana*.
 - Catholic refers to a person who follows the monotheistic religion of Catholic Christianity, especially that of the Roman Catholic Church. Followers of this faith believe the teachings of the Bible, and place emphasis on church traditions, including the historical continuity of the church, the Pope as the head of the church, and the requirement of celibacy of those in the priesthood.
 - Eastern Orthodox (Russian, Greek, Other) refers to a person who follows the monotheistic religion of the Eastern Christian Church. This faith follows the teachings of the Bible and church traditions, accords primacy of honor to the Patriarch of Constantinople as head of the church, and adheres to the decisions of the First Seven Ecumenical Councils and the Byzantine Rite.
 - Hindu refers to a person who observes the traditions and practices of the dominant religion of India, which include acceptance of the sanctity of the Vedas (sacred texts); the understanding of one Divine Reality manifested in multiple forms; acceptance of the laws of karma (principle of cause and effect), dharma (righteous modes of conduct), belief in reincarnation, and the ultimate spiritual goal of enlightenment (moksha).
 - Islamic (Muslim) refers to a person who follows the monotheistic religion of Muslims, which includes belief in Allah as the sole deity and in Muhamad as his prophet. Practitioners of the Islamic faith follow the teachings of the Koran and practice the Five Pillars of Islam: praying, fasting during Ramadan, almsgiving, pilgrimage, and declaration of faith.
 - Jehovah’s Witness refers to a person who follows the religion founded by Charles Taze Russell. Members witness by distributing literature and by personal evangelism of beliefs in the theocratic rule of God, the

sinfulness of organized religions and governments, and an imminent millennium. The activities of Jehovah's Witnesses are governed by the Watchtower Society which makes all major decisions, interprets the Bible, and counsels Witnesses using Watchtower materials. Members of the faith are often seen giving generously of their time in proclaiming their faith and teaching in private homes.

- Jewish (Judaism) refers to a person who identifies himself or herself as a member of the religious and/or ethnic group that descended from the ancient Hebrews and is characterized by belief in one transcendent God who revealed Himself to Abraham, Moses, and the Hebrew prophets. Jewish religious practice is based on the Hebrew Scriptures (the "Torah") and rabbinic laws and customs.
- Mormon (Latter-day Saint) refers to a person who follows the Church of Jesus Christ of Latter-day Saints tracing its modern origin to Joseph Smith and accepting the Book of Mormon as scripture. Latter-day Saints consider the following writings to be scripture: 1) The Holy Bible; 2) The Book of Mormon, Another Testament of Jesus Christ; 3) The Doctrine and Covenants; and 4) The Pearl of Great Price. Mormons are often associated with members of the faith who serve as full-time volunteer missionaries in the U.S. and abroad.
- Multiple Religions, Group refers to a group of persons demonstrating a commitment or devotion to religious faith or observance based upon multiple faiths.
- Other Christian refers to a person who follows other denominations or nondenominational religions based on the life and teachings of Jesus Christ but not described in the other religion categories. HIBS-3a: Students Disciplined for Harassment or Bullying - Sex

Schools and justice facilities, grades K-12, UG

Instructions

- A student disciplined for engaging in harassment or bullying on the basis of multiple categories should be counted in each applicable category. For example, a student disciplined for engaging in harassment or bullying on the basis of both sex and disability should be reported in both the sex table and the disability table.
- In classifying the disciplined students, look to their likely motives, and not the actual status of the alleged victims.

For the regular 2020–21 school year, not including intersession or summer, enter the number of students in grades K-12 (or the ungraded equivalent) who were disciplined for harassment or bullying on the basis of sex.

RSTR: Restraint & Seclusion

Module Instructions

DATES

Report a cumulative count based on the entire 2020–21 regular school year, not including intersession or summer.

WHEN to REPORT ZERO (0) and WHEN to USE BLANKS (i.e., NULL VALUES)

Zeros represent an actual count or number for fields that are applicable to a given school or LEA. Do not report a “0” for data not collected. The submission of a blank (i.e., null) value should be used when the amount asked for in the question is unknown, if the data are not collected, or if the data do not apply to the LEA.

NOT APPLICABLE (NA) and ZERO (0) FILLS IN TABLES

The online tool remembers information that has been entered in other tables and modules and uses that information to fill related tables with either a Not Applicable (NA) code or zero (0) where appropriate. For example, if it is reported that a school does not have any females who are EL, then other tables that ask for counts of females who are EL will be automatically filled with a zero.

SPECIAL INSTRUCTIONS

*For schools that report offering virtual instruction only (Option B for DIND-1) **AND** describe the virtual setting as having students that were not physically in the school setting (Option B for DIND-2), then the Restraint and Seclusion module does not apply.*

Students may be counted in more than one restraint or seclusion

KEY DEFINITIONS

Mechanical restraint refers to the use of any device or equipment to restrict a student’s freedom of movement. The term does not include devices implemented by trained school personnel, or utilized by a student that have been prescribed by an appropriate medical or related services professional and are used for the specific and approved purposes for which such devices were designed, such as:

- Adaptive devices or mechanical supports used to achieve proper body position, balance, or alignment to allow greater freedom of mobility than would be possible without the use of such devices or mechanical supports;
- Vehicle safety restraints when used as intended during the transport of a student in a moving vehicle;
- Restraints for medical immobilization; or
- Orthopedically prescribed devices that permit a student to participate in activities without risk of harm.

Physical restraint refers to a personal restriction that immobilizes or reduces the ability of a student to move his or her torso, arms, legs, or head freely. The term physical restraint does not include a physical escort. Physical escort means a temporary touching or holding of the hand, wrist, arm, shoulder or back for the purpose of inducing a student who is acting out to walk to a safe location.

Seclusion refers to the involuntary confinement of a student alone in a room or area from which the student is physically prevented from leaving. It does not include a timeout, which is a behavior management technique that is part of an approved program, involves the monitored separation of the student in a non-locked setting, and is implemented for the purpose of calming.

A sworn law enforcement officer may be employed by any entity (e.g., police department, school district or school). An officer’s duties may include: motor vehicle traffic control; security enforcement and patrol; maintaining school discipline; coordinating with local police and emergency team(s); identifying problems in the school and proactively seeking solutions to those problems; training teachers and staff in school safety or crime prevention; mentoring students; teaching a law-related education course or training students (e.g., drug-related education, criminal law, or criminal prevention courses); recording or reporting discipline problems to school authorities; and providing information to school authorities about the legal definitions of behavior for recording or reporting purposes (e.g., definition assault for school authorities).

RSTR-3: Instances of Restraint or Seclusion

Only for schools and justice facilities (grades K-12, UG), which have reported counts of students subjected to restraint or seclusion

Instructions

- This item deals with instances and not counts of students. One student may be involved in multiple instances, and so the number of instances may exceed the number of students subjected to restraint or seclusion. However, the number of students should not exceed the number of instances.
- Report the number of instances of mechanical restraint, physical restraint, and seclusion for students in grades K-12 (or the ungraded equivalent), not the number of students who were subjected to restraint or seclusion.
- A student may have been subjected to mechanical restraint, physical restraint, and/or seclusion more than once.
- For mechanical restraint, do not include a student who is handcuffed by law enforcement personnel (e.g., [sworn law enforcement officer](#)) during an arrest. However, if a student is handcuffed and no arrest is made, then the student should be included.

KEY DEFINITIONS

A justice facility is a public or private facility that confines pre-adjudicated/pre-convicted individuals, post-adjudicated/post-convicted individuals, or both. Justice facilities include short-term (90 calendar days or less) and long-term (more than 90 calendar days) facilities, such as correctional facilities, detention centers, jails, and prisons. These facilities may confine juveniles (individuals typically under 21 years of age), adults (individuals typically 21 years of age and older), or both. Some states and jurisdictions include individuals younger than age 21 as adults due to statute/legislation and/or justice procedures. For the purposes of the CRDC, only individuals up to 21 years of age who are confined in justice facilities are of interest.

A justice facility educational program is a program for children and youth (not beyond grade 12) served at a justice facility that consists of credit-granting courses and classroom instruction in at minimum, basic school subjects, such as reading, English language arts, and mathematics. Classroom instruction in vocationally-oriented subjects may also be considered part of the program. Neither the manufacture of goods within the facility nor activities related to facility maintenance are considered classroom instruction. Credit-granting refers to any course that results in a letter grade or a pass/fail designation and is required of a student to move to the next grade level or complete a program of study and receive a high school diploma.

A regular educational program usually begins in the late summer or early fall and ends in late spring or early summer. On average, a regular educational program operates for 210 days. A year-round educational program usually operates for a 12-month period.

JUST-1: Justice Facility Type

For justice facilities only

- A pre-adjudication facility confines pre-adjudicated juveniles. A pre-adjudicated juvenile is an individual (typically under 21 years of age) who has been charged, but who has not participated in the court process that determines whether he/she has committed the crime. Adjudication is the court process that determines (judges) if the juvenile committed the act for which he/she is charged.
- A post-adjudication facility confines post-adjudicated juveniles. A post-adjudicated juvenile is an individual (typically under 21 years of age) who has been charged and determined to have committed the crime. Adjudication is the court process that determines (judges) if the juvenile committed the act for which he/she is charged.
- A pre-conviction facility confines pre-convicted adults. A pre-convicted adult is an individual (typically 21 years of age or older) who has been charged, but who has not participated in the court process that determines (judges) if he/she committed the act for which he/she is charged.
- A post-conviction facility confines post-convicted adults. A post-convicted adult is an individual (typically 21 years of age or older) who has been charged and determined to have committed the crime.

Items noted with an asterisk “” reflect guiding questions. Answers to these questions determine whether a school is presented with subsequent items.*

For the regular 2020–21 school year, not including intersession or summer, indicate if your [justice facility](#) was best described as pre-adjudication (pre-conviction), post-adjudication (post-conviction), or both.

	Permitted Values: Pre, Post, or Both
Please select “Pre” or “Post” or “Both.”	

JUST-2: Days in Regular School Year at Justice Facility

For justice facilities only

Instructions

- Enter the number of days that make up the justice facility’s regular school year. In other words, enter the number of days per year that the regular [justice facility educational program](#) operated.
- Value should be entered as a whole number.

For the regular 2020–21 school year, not including intersession or summer, enter the number of days that the [regular educational program](#) operated at this [justice facility](#).

JUST-4: Justice Facility Educational Program Participants

For justice facilities only

- Length of time refers to the cumulative number of calendar days that the student participated in the educational program. For example, a student in the facility who participated in the educational program for 10 days, left the facility, and then re-entered the facility and participated in the educational program for an additional 10 days during the same regular school year would be counted as a student with 20 cumulative days.

Instructions

- Enter the number of students who participated in the [justice facility educational program](#) during the regular school year at the justice facility for the length of time specified.

Items noted with an asterisk “*” reflect guiding questions. Answers to these questions determine whether a school is presented with subsequent items.

- A student may NOT be counted in more than one row.

For the regular 2020–21 school year, not including intersession or summer, enter the number of elementary, middle, and high school age students who participated in the [regular educational program](#) for the length of time specified.
