SOMETHING FUNNY HAPPENED ON MY WAY TO THE CONSUMER ELECTRONICS SHOW...

As all die-hard EGM readers know by now, the Consumer Electronics Show is the definitive showcase for everything new in video games. Both good and bad softs receive equal attention in the spotlight of new products at the CES, providing gaming editors like myself with an unparalleled opportunity to see into the future and test firsthand what promises it holds.

It's also a decent place to pay twelve bucks for a piece of pizza in a cafeteria with inadequate seating.

But what's more important than the open bazaar spirit of the show is the ways in which it consistently, year after year, manages to instill new faith in the video game industry to those who are lacking, and focus even stronger attention on those products that are worthy of additional attention. It also provides EGM with a chance to visit the 100+ booths and display areas throughout the convention hall and surrounding hotels to snap the first pictures of the games you'll be playing tomorrow. In short, the CES not only succeeds as a trade show that caters to the movers and shakers in the video game industry that get the hottest titles from computer screens to store shelves, it also provides a unique chance for video game publications to pass on a sneak peek at what's just over the horizon.

But something funny happened on my way to this year's show. The organizers of the CES decided to unlock the doors which had, since the show's inception, kept the public from getting a direct look at what the future had in store for all of us. The 1992 Summer Consumer Electronics Show will be open to everyone - and everyone will be highly surprised to see just what the CES is all about.

For the game player it will undoubtedly prove to be the ultimate video game wonderland. Those lucky enough to attend will be privy to the first information on hot hits like Street Fighter 2, Turtles 4, Batman Returns and Sonic 2. You'll also see the American version of the Mega CD-ROM drive for the Genesis in action and get special screenings of the GameBoy Game Genie, Sony Play Station and new TTI Duo game machine. The CES will provide all who attend with the sensation of exactly what it's like to be the editor of a video game magazine. Even though our editors have played many of the biggest titles for months, there will still be many more softs and hardware previews that the EGM cameras have never been exposed to before.

And for those of you who do attend, you can sure bet that EGM will be there on the floor with you! In addition to passing out preview copies of the July edition of EGM to qualified readers, our booth will contain many other special surprises ranging from a Street Fighter 2 competition (with a Street Fighter 2 arcade game and Street Fighter 2 Super NES carts as prizes) to a sneak preview of what is sure to be one of the hottest video game magazines ever produced! In short, EGM is as excited to see you coming to the CES as you are, and we won't disappoint!

For those of you who can't make it to the Chicago party, don't worry! The EGM cameras will take in every new game, just as we've done in the past! We'll also deliver all the excitement from the show next issue in a special 32-page collector's magazine that highlights everything video games have to offer in the months to come! We look forward to seeing you!

STREET FIGHTER 2 FEEDBACK...

O.K., this time you guys have really outdone yourselves. And I'm not just saying this to get into your mag either. But anyway, I just wanted to let you guys know that you're doing a great job on covering the arcades and reviewing the games that EVERY-ONE likes. Oh sure another mag could cover SF2 with a couple of pictures, but you guys did a whopping 15 pages on it!!! How did you get so much information in just one issue when no one even talked about it?

Craig Wilson Fort Lee, NJ

I had to write to you guys to compliment you on your SF2 coverage in the April issue. You guys had the first in-depth coverage of the mega-hot SF2 for the S-NES. As far as I'm concerned, EGM rules.

Jerett Blaskey Campbell, CA

Honestly I love your magazine and I love your reviews and it blows every other mag away. But frankly for about the last 6 or 7 issues something is really pi.... me off. I am sick and tired of hearing about SF2. Sou spend too much time on that "16 meg wonder". If you ask me it is a mindless punching, kicking game with an old idea with a couple of neet tricks. Spend your time on other stuff like Genesis not the S-NES.

John Mullin Bayport, NY I just called Capcom and I got disappointed. Since I heard about SF2 Champion Edition, I wanted to know what system it would be coming out on. They said it would NEVER be coming out for any home system. They also said that none of the new features of the Champion Edition were put into the S-NES version. You have always been able to get the straight scoop, will the Champion Edition ever come out?

Alex Rogue Hialeah, FL

The world's most popular game has to be SF2. I can't count the hundreds of dollars I have poured into the arcade machine. Then last month I saw your great 16 page insert on the game and I decided then and there that I will sell my Genesis and buy a S-NES. This game is hot. While I applaud your extended coverage of the S-NES game I can't help but wonder if you being paid by Capcom to hype it up. What causes me some concern is the fact that none of the other magazines have had the coverage that you have. Sure, Mr. "I won't publish it till it is in the WorldBook" hasn't done anything on it, as expected, but I find it hard to believe that the other 2 mags haven't done anything on it at all. Explain yourself!

> Daryl Stenberg Kinnelon, NJ

I noticed that you made an unusual statement in your April 15 page blow-out of SF2. You wrote in Guile's stats that he served in the Special Forces in Vietnam and, that he was born in 1960. The last American troops were pulled out of Vietnam in 1975 when Guile was only 15. Did you guys make this up?

Josh Raymer White House, TN (Ed. The reader response to our lengthy SF2 coverage has been phenomenal! Well over 99.9% of the letters were in favor of it and we really had to search long and hard through the mailbag to find a negative letter like John's.

We here at EGM are gamers and we like to believe that we can tell if a game is good or bad. SF2 is better than good, it is spectacular, and when a game is that good we want to tell everybody, everything we can about it. In this case it took a special trip to Capcom to do it.

Here is the scoop. As you can guess the security on this game is intense. Back in February there was only one copy in the U.S. and it was at Capcom; and it was to stay at Capcom. There wasn't any exclusive granted as all of the magazines could go there to play the game and take photographs. Two mags were just a short distance away and we were 2,000 miles away. Distance aside, it didn't take too much to convince Steve to let us go. The rest is history a lot of photos, a couple of interviews and 15 pages in the April issue. We can't say why we were the only mag to cover it in detail. Perhaps after it is out in the stores ...

There is no hard evidence that SF2 Champion Edition will be coming to any home system. You name the rumor and we've heard it also - Mega CD, TurboGrafx CD and even the Lynx! As of this point in time (there may be some BIG surprises at CES) there is only one home version and it is the S-NES game.

We noticed Guile's age discrepancy when we got the text from Capcom on the player profiles. Unfortunately the profiles were created by Capcom of Japan and, even to this date we don't know why they showed him as a 'Nam vet at age 15.)

APRIL FOOL...

You guys are brutal. I was about to head down to the local arcade to spend BIG money to fight Sheng Long when I realized that no state is abbreviated "HA". Being from Hawaii saved me from bankruptcy. It was pretty funny seeing all the other SF2 junkies futilely trying to get through 10 perfect rounds with M. Bison, though. Cruel, too cruel. Yet funny in a sadistic sort of way.

Jeremy Niwa Honolulu, HI

I just had to write you about your April Fool's trick. It has to be Sheng Long. I believe that this to be this year's prank (and perhaps the prank of the decade)! The key is in the pictures. In photo 1, when time expires Ryu is no longer in his fighting stance, but stands with his arms folded. Also the LAST place Ryu and Bison would end up after a draw would be their exact starting positions. Photo 3, When looking at the spire on top of the building behind the "E" in Sheng Long, it has completely disappeared. One should see a partial piece of the spire through the "E". Finally although Sheng Long appears no larger than Ryu his shadow is the same size as Bison's. Am I right?

> Grant Kumagai Scarborough, Ontario

(Ed. This is just a sampling of the letters we received on our April Fool's contest. Not everybody guessed the SF2 pix as the joke though. Out of the thousand + letters we really got some strange entries. Some of the interesting, but incorrect guesses include: the Lenus Next Wave; one of the Camerica ads; the Game Gear on TV EGM Express; the Take the A Train international file and the whole Power Punch fact file. Until next April...)

RGB ON S-NES...

A few months back you talked about a company which would make RGB cables for the Genesis system. At that time you stated that S-NES cables would be out in the near future. I don't remember the company and are the cables ready now. My monitor (Com-

modore 1084) doesn't have a Super VHS input otherwise I would use that Super Nintendo cable. Can you help me?

Patrick Knies Little Rock, AK

Redmond Cable has RGB cables for both the S-NES and Genesis.

(Ed. No problem Patrick. The name of the company that makes all the cables is Redmond Cable. They have two offices. To serve the East Coast call (615) 478-5760. For the West Coast cass (206) 883-1430. They have the S-NES RGB cables for many different monitors so it is best to give them a call. Expect to pay about \$40 to \$50 for the cable. We have their 1084 RGB cable and it works great!)

PROFITABLE TRICKS!...

I just had to write to you to tell you that you have the best tricks section in the industry. I even have been able to use it to get me some free prizes! What I have noticed is that your magazine comes out at certain stores a week before it comes out in other stores. As soon as that store gets it in I buy it and search through it for the really hot codes. I then copy them down and Express Mail them to the other magazines. It got me a some free prizes!

J. Thomas St. Louis, MO

(Ed. Uh...thanks for the compliment. I think. Any way, you can always count on EGM to get you the very latest in the hottest tricks and passwords. One note of caution. Don't expect them to be excited about getting passwords. After they got nailed for running our 'set-up' David White code they are now a little gun shy about doing it again.)

MEGA CD COMPATIBILITY...

I am very upset about what I read in the February issue of EGM regarding the Genesis Mega cD drive. Twice in your magazine you mentioned the fact that the old Altered Beast [Genesis] systems will not be compatible with the Genesis Mega CD. For owners like myself who bought the system when it first came out, Sega has made it impossible for us to utilize these new drives. Does Sega really expect us to shell out \$300 to \$370 for their CD drive, then spend another \$150 for a second system?

Scott Gordon Reston, VA

(Ed. Sorry if we didn't make the point clear Scott, but we didn't say that the old Altered Beast Genesis system wouldn't be compatible with the Genesis CD-ROM. Rather, we stated that the [Japanese] Mega Drive Mega CD-ROM would not be compatible with the Genesis game system. Sega of America has every intention to make sure that all U.S. Genesis systems (both the old Altered Beast and the new Sonic systems) will be compatible with the new Genesis CD-ROM.)

THE MISSING GUY ...

Yo! There is a burning question that I just absolutely need answered! In a back issue of EGM you stated that there was a game called Final Fight Guy. It had the one missing dude from the S-NES version that was in the arcade game. Is this cart just a reissue of Final Fight? Will it be 2 player? Will Haggar and Cody be in it too?

Daryl Brownell Toledo, OH

(Ed. The game for the Super Famicom is called Final Fight GUY. As the name suggests the person (Guy) left out of the S-NES version is now in this update. Now Cody is the one who is left out of the new game. The levels are the same except that there is more background detail. There are more things that you can pick up too. Unfortunately it still is only a one player game. Capcom states that they will not bring that version over to the U.S.

WHERE IS?

My hands are trembling as I type this. I just sent off a letter to you a few days ago, but I just got my hands on your phenomenal May issue and I must thank you for giving me a reason to go on living.

In the May issue your coverage of Techno Soft's Thunder Force 4 absolutely floored me!! They are the greatest video game creators on the planet, and I am confident that their masterpieces will be released in America. I have asked before, but why has Elemental Master not been released? It is so perfect! What is the problem? Please do an article on the life and times of Techno Soft. Please clue us in on the situation.

Michael Owens Walls, MS

(Ed. As you know, Elemental Master hasn't been released in the U.S. yet. When it first came out in Japan it sold quite well. However, it appeared at a time when everybody was bringing out a new shooter and Technosoft just didn't think it would do very well in the U.S. If you really have to have the cart you may want to order it through one of the mail order companies. It is quite old and you should be able to get it for a good price. Thunder Force 4 is very new. We were only able to get our hands on a few screen shots and it is still to early to tell if it is going to live up to the Thunder Force tradition. Also, since it is so new no plans for the U.S. market have been made. It may appear at the Summer CES, and if it does you can be sure we will be there with our cameras.)

UNFAIR TO CANADIANS?

I am writing to you about your video game high scores. Way back in your October issue you said that you didn't put any restrictions on Canadians in your contests.

But the fact that we must include a S.A.S.E. to get our official contest order form puts a restriction on us Canadians because there is no stamp in Canada that I can use that will work in America.

To top it off, I was real mad when I

received my February issue and found that I would have won third prize in Castle of Illusion as my score was over 2 million. I hope you can solve this problem not only for me but everybody who lives outside your country.

Nathan Hortness Petawawa, Ontario

(Ed. Sorry to hear that you missed out on winning one of our contests just because of a stamp! There is a real easy solution to your dilemma (and anybody else's in the world). All you have to do is go to your local post office and ask for an International Reply Coupon. Tell them that you want the equivalent of airmail postage from the U.S. to your country and they will advise you as to how many I.R.C.'s you will have to send.)

MEGA CD...POPULAR?

Let me start off by saying these few, basic words: EGM Rules. There's no doubting it. You guys have all the info and pictures before anyone else does. Like many I am eager to purchase the long awaited Sega Mega CD-ROM machine. It'll wipe out the competition, no sweat. It looks as if it is doing pretty well in Japan, but no magazine has yet confirmed its holding place on the market. Is it not doing as well as it was expected? Or is it toppling the competition? Since you guys have all the right answers with no lies included, I thought I'd bring my question to your attention.

Christopher Friedberg Bensalem, PA

(Ed. I wish I had good news to report Chris, but the honest truth is that the Sega's Mega CD-ROM is not doing that great in Japan. It started out hot with the first batch of units selling out in a few hours. There were a couple of pieces of software in the stores when the system came out but the new software stopped. Without good games, the system's popularity declined. During our last trip to Tokyo in March, we were very amazed to see the Mega CD heavily discounted and selling for about \$250. All of the Japanese licensees are working on Mega CD software, but when the next generation of software appears in the stores later this year, it is very likely that the system's sales will pick up again.)

NEW AT THE ARCADES...

You guys are the greatest! I remember a while back you hardly ever covered the arcades and another mag had the coverage (albeit 4 months old). Now you are easily the number one mag, as demonstrated by your Street Fighter coverage. The others are now chasing you. Has there been any new developments beyond 32 bit machines that we should know about?

Sidney Sterberg Canton, OH

(Ed. Sega has just demonstrated some new technology which should help make certain simulations (especially driving games) even more real than the current Rad Mobile etc.

This new system incorporates 3 boards in one. The first is simply called Model 1; the second a CG (Computer Graphics board) and the third - a modified System 32 board.

The Model 1 is a practical (and economical offshoot) of their Virtual Reality concept.

The CG board is an ultra fast processor which can handle 120 megapixels per second and 16 million colors. This represents an image about 4 times as detailed as previously was possible.

The modified System 32 board now includes the ability of handling two "Wide Vision" (using the new 16:9 aspect ration) 36 inch monitors sideby-side simultaneously!

Whew! The first game to use all of this is called "BV" (for Beautiful Vision). This is a super real formula racing game that blow all others away.

In other news Sega recently showed a new System 32 game: Golden Axe: Revenge of Death Adder.

MEGA CD ROM UPDATE ...

I am beginning to get very concerned about Sega, its games and the new Mega CD-ROM. What really bothers me is the fact that YOU, the editors of the number one game magazine have heard nothing! Does Sega still exist? Please find out what is new and tell me something?

Nathan Maas Brooklyn, NY

Help! I need information! All my friends are raving about how great the new Super Nintendo CD-ROM is. They are talking about specifications that are better than the Mega CD How can this be? You are no better! First you were bragging about how good the Mega CD specs were and now it seems that you are taking Nintendo's side. Are you a fair weather fan and side with whatever is newer and more newsworthy? I haven't seen anything new about the Mega CD in your elite magazine in months. Do something!

Bryron Snyder Spokane, WA

I want to compliment you on your great Sega coverage. You have always been the first to give us the news. Your Mega CD story was right on the money and the incompatibility of regional CD's saved me (and lots of other players) a lot of money. Your Wonder Mega article was insightful and unique. Nobody else has even mentioned the Word Wondermega yet alone an indepth article. Keep up the great work on the on-site interviews. They lend a great deal of credibility to your stories. Where the other mag will list a few vague sentences you tear the subject apart and show your staff actually playing the unit! Keep up the great work as I know you will!

> Ron Moore El Paso, TX

LAST MINUTE UPDATE:

Capcom has just announced that it will be releasing later this year, a S-NES football game endorsed by the NFL! It will be called Capcom's NFL Football. Hmmm..that makes both Konami and Capcom with the same game, on the same system, with the same endorsement and name!

The new Sega CD (name change) will sell for \$299 and come with 3 CD's!

(Ed. We are as concerned about the future of Sega as you are. Believe me, Ed has made it a full-time job searching for the latest info on all of the CD-ROM systems. What gets printed is not determined by choice but rather, by what is available from all of our sources. As we have reported in the past, Sega has imposed very tight security on anything they will be showing at CES. This includes their CD unit.

There is good news though. Although Sega has cut off the U.S. press they can not control what goes on in Japan and England, so Ed has been spending a lot of time on the phone getting the information that Sega doesn't want us to have. This is the latest from our World Net™ sources:

SEGA CD-ROM...!!

Sources in England are reporting that Sega has changed the name of their CD-ROM system. It no longer will be called the Genesis Mega CD-ROM. The new, official name for the U.S. will be Sega CD.

Japan is reporting in with the ultimate in hot juicy top secret info!!!

Sources at our World Nef™ participating magazines are telling us that the new Sega CD will retail for \$299 in the U.S. Although somewhat higher than the reported \$200 for the Super NES CD-ROM, Sega is rumored to be making up the difference with three pack-in discs:

1) To demonstrate the spectacular abilities of the nongame CD portion of the Sega CD system, Sega is rumored to be packing-in a CD+G(graphics) disc which will

include various types of music selections, with short still-frame video clips that match up with the tune and play on your TV.

- 2) As we reported in the past, Sega will take some of their hottest cartridges (titles unknown at present) and pack them in on one CD. NOTE: These will not be new games, rather they will be just direct transfers with no graphic enhancements or changes to the games. No word on whether Sega will trash the game music and replace it with new super stereo CD music.
- 3) There will be a pack-in CD game. Sources inside Sega confirm that nothing new, that is really hot, will be available by September. That leaves only games from third party companies. With nothing 'spectacular' already out (or soon to come) in Japan, that leaves companies like Icom, Virgin or Acclaim who could have a game ready. We strongly believe that a Sega CD version of Sherlock Holmes Consulting Detective or Terminatoir or Bart Simpson will be the pack-in disc.
- 4) Rumors persist that Sega may at the very last minute (depending on if they can find out if the \$200 Nintendo CD-ROM price is real) sweeten the deal a bit further. They may (in the U.S. tradition) throw in a game cartridge as a super bonus!

Super NES - Jaleco RIVAL TURF

Theme: Fighting Available: Now No. of Levels: 6 Megabits: 8

Rival Turf from Jaleco is the latest addition to fighting games on the Super NES. The streets are crawling with enemy thugs and it is up to you to stop them! You can take on the enemy by yourself or bring along a friend for some exciting head-bashing two player action!

Over20 different moves are at your disposal during the six stages of action! The streets are tough, but show them all that you are tougher!

Rival Turf attempts to duplicate the look and feel of other, more famous, fighting games like Street Fighter 2 or Final Fight. While the game action is not bad by any sense of the word, it also lacks the flair needed to make it stand out from the rest of the genre. Add this only If you feel obligated to have every fighting game.

Rival Turf is a very good two player fighting game. The characters are large and the animation is quite smooth. While there could be more moves, the ones that are there are very effective once mastered. Pounding up your friend as you play can be fun, and it guarantees a few laughs in an otherwise serious type game.

Rival Turf does a good job of emulating Final Flght and adding a two player feature. The game play is very good, but there are even less moves and that makes the game a little too easy. The graphics and sounds are above average, but I was very disappointed at the slow down in the two player mode.

I am sorely disappointed with Rival Turf! The graphics aren't the best ever seen, and the music lacks variety. The two player mode is OK but not spectacular. Just having a two player mode is good though, as it can be a fun game when playing with a friend. As a one player fighting game it is only average.

Super NES - American Sammy MIGHT & MAGIC II

Theme: RPG Available: July No. of Levels: N/A Megabits: 8

In Might and Magic II: Gates to Another World, you embark on a mission like never before! You and seven other party members must set out on a voyage to locate the Gates to Another World. Along the way, you encounter countless beasts and creatures out to stop you. Purchase new items at shops located in the Overworld with gold collected from fallen enemies. For a real challenge in RPG's, look no further!

Might and Magic on the Super NES does succeed in duplicating the look and feel that the M&M games are known for. While I was looking for the Super NES to take the concept of this game somewhere new, the adventure itself should please fans of the original. Not a bad RPG, but also not the type that blows me away.

This version of M & M is what I am looking for in a hard core RPG. It is definitely for serious players only and those who buy it should set aside a very long time to get into the game. The quest is enormous and you certainly won't run out of enemies to fight. Overall a faithful conversion of the series with S-NES graphics.

Might and Magic is for hardcore RPG fans only. Setting up your own party of characters is cool and there are plenty of monsters to battle. The graphics are plain and the first person animation could be better for a 16-Bit cart. The quest is long, but it seems to be overdone. I need more action in a game.

Might & Magic is a classic RPG with tons of monsters and mayhem for hours of fun! This is hardcore RPG action, topped with 16-Bit style, albeit first generation type programming. Still, it is a must for all RPGers and it should do well in lieu of the recent deadline push backs of some hot titles on the horizon.

Super NES - Tradewest JACK NICKLAUS GOLF

Theme: Sports Available: Now No. of Levels: N/A Megabits: 4

Jack Nicklaus Golf is based on the popular computer title of the same name. You can choose from two different courses and start on any hole you desire. You can choose from one to four players and pick different skill levels for each golfer. All the things you would expect on a course like sand traps, water hazards and trees are here, as well. There are even digitized pictures and realistic sounds throughout!

While I'm not going to fault the execution of this game, I must admit that the presentation of this golf game has gotten a bit old. Although the game has grown up over the years, the look, feel and play style are all a bit outdated. This isn't a bad golf game, but it also doesn't break any new ground.

There sure enough golf games to choose from on the Super NES. I like playing the real thing but when it comes to video golf I just can't get too excited when I see the same thing over and over again. Nothing really new and exciting here other than a different course to try to master. As such, Nicklaus is only average.

Nicklaus Golf has a few cool features. I like the way that you follow the ball after you hit it. I dislike the way that the screen has to update after each hit. It takes forever and gets old really fast. The sounds are excellent with plenty of digitized effects to please your ears. The scaling is choppy and shows no use of Mode 7.

Jack Nicklaus Golf is a good game, but I firmly believe it is arriving too soon. I believe that with a little more work the rough spots could be smoothed out. Excellent music does not overshadow the slow screen update time. It appears to be a bit choppy in areas and a good game doesn't have to be this way.

Super NES - Absolute Ent. SUPER BATTLETANK

Theme: Simul. Available: Now No. of Levels: N/A Megabits: 8

Take command of an M1A1
Abrams battletank in Absolute Entertainment's Super Battletank. Saddam Hussein is up to his old tricks again, so you must travel the sandy terrain to wipe out the rest of his army! Your weapons include a 120mm cannon, machine guns and laser-guided missiles. Super Battletank also features detailed digitized pictures of tanks, scud launchers, and towns!

There's a lot of depth in this game that's really enjoyable. The different scenarios you can choose from, as well as the multitudes of ever-changing environments that the game presents give it a brilliant score for execution. The actual battles, however, get a bit repetitive after extended play and ultimately take the gloss of this cart.

Leave it up to Absolute to come up with something new and exciting. This version is one of the few S-NES games that says "Super" and really is. A great looking game that plays well also. Probably the most innovative new game to come along in a long time. Real sound, real 'tank-type' movement and real battles.

One of the most original carts that I've seen on the S-NES. The enemies are digitized and look really cool. The backgrounds, however, are repetitive and boring. There are a variety of different weapons, but there's just not enough variety in the actual game play to keep it from getting repetitive. Excellent sound effects!

Excellent! Although it lacks a certain variety I crave in a video game, I love the overall game play and sound effects. The search-and-destroy feeling is a hard aspect to grasp in a video game, but Super Battletank does a marvelous job. I would like to see an updated version in about one year.

Super NES - Electronic Arts PGA TOUR GOLF

Theme: Sports Available: Now No. of Levels: N/A Megabits: 4

EASN is proud to present its premier golf title, PGA Tour Golf. You may choose from four different courses and start on any hole you want. Up to four players can battle it out to win the PGA Tour. A few of the other options include a putting course and a driving range to test out your clubs. When you are out putting, you get a detailed view of the landscape showing hills and ruts on a 3-D grid!

Although this game features some decent play mechanics, it's a bit too ambitious for its own good. Nevertheless, despite the absence of smooth scaling, PGA Golf manages to tread into some new areas that other golf games haven't thought of traveling. It's short on presentation, but has some nice play value.

I had hoped that the masters at EA would come through with a dynamite golf game. Perhaps it is the system rather than the programmers, but the bottom line is that the game is good but not spectacular. I expected to get a "Madden" of golf but ended up with a "Montana". A very challenging course to play though!

What happened EA? The king of Sports games just didn't come through this time. The graphics aren't the best ever seen and there is almost no evidence of Mode 7 at work. The game has a few cool features that enhance the game play, but they don't make up for the visuals. It plays good though.

I really don't believe that EA did their best on this game. Golf is golf and anybody can program in the basics. I expected EA to come through with some stunning zoom effects and awesome sounds. While there are lots of golf games already out, none are great and EA could have taken over the sport with mare effort.

NES - Microprose F-15 STRIKE EAGLE

Theme: Simul. Available: Now No. of Levels: N/A Megabits: 2

Based upon the success of the computer versions, F-15 Strike Eagle takes flight simulation to a new high on the NES! You can choose from four rankings starting from Airman all the way up to an Ace! Choose from seven tough missions including a trainer scenario in Libya. After the mission briefing, take off and blast away the targets with your cannons and heat seeking missiles! Good Luck!

This game is simply too ambitious for the 8-Bit Nintendo. What's left of this simulator-shooter is basically an exercise in target practice with graphics and sounds that are something short of spectacular. This game is slightly better than Top Gun and other titles that appeared years ago, but doesn't possess much else.

I guess that there are things that an 8 bit system just isn't capable of doing, like being able to display a good flight sim. This version needs variety, better control and improved graphics. As a 'fly around and shoot at anything that moves' game it is OK but it is far from what you would call a simulation.

An 8-Bit flight simulator, need I say more? Graphically this cart is uneventful. The 1st person graphics are choppy and offer very little realism. The plane is difficult to control and the actual feeling of flight is lost altogether. Games like this really don't have a 'fighting' chance, but then the system doesn't either.

Good-bye 8-bit! Flight simulator die-hards will grit their teeth with this game because it just isn't real. The average player who is looking for a good, fun game to play will have problems getting accustomed to the graphics, control, sound, and game play. I hope their next attempt on 16 bit is better.

NES - Camerica MIG-29

Theme: Simul. Available: Now No. of Levels: 5+ Megabits: 2

Camerica is joining the flight simulator bandwagon with their newest entry, Mig-29. You are a top notch soviet pilot out to make your country proud! You must complete various missions like recovering a stolen TU-22 bomber and refueling your plane at various points. You can even switch arcade and simulator controls for better play control! If you think you can be a top Soviet ace, look no further than Mig-29!

Take away the background wallpaper and fluff from this title and what you're essentially left with is a basic first-person shooter with adequate graphics and sounds. Like Strike Eagle, this is basically a Top Gun update that doesn't have the Top Gun name. Very limited in scope and playing options.

While MIG-29 is not a better game than F-15, at least it doesn't pretend to be a 'real' flight simulator. Geared more for the younger player, this is a good game but not a spectacular one. More importantly it is fun to play. Not a lot of difficult flight instructions just take off and shoot. While limited in options nothing is missing.

It's no top gun, just your average run of the mill 8-Bit cart. Not a terrible effort, but not a game that will remain in your mind until you get it for yourself. There are a few cool features, but the game is repetitious and creates little excitement. The graphics are typical 8-bit as are the sounds.

Why bother making a flight simulator on an 8-bit machine? They have never done well. Now, this isn't the fault of the programmers by any means as they have taken the 8-bit system to its limits. This is a kids game and for their use, MIG 29 should do just fine. It is not acceptable for the serious gamer though.

NES - Nintendo YOSHI

Theme: Puzzle Available: Now No. of Levels: N/A Megabits: 1

The co-star to Super Mario World, Yoshi, is now starring in his own NES title! The game play is similar to Tetris because you collect falling characters and try to match them up in pairs. Mario is standing by to help catch and rotate the falling characters. If you manage to gather up a group of characters between two halves of an egg, get set to win lots of bonus points. You can even play a two player simultaneous game!

Tetris worked because it was overly simple and became fun to play. You competed against yourself more than anything else. This game tries to capture many of the same feelings, but just doesn't succeed. If you're in the mood for a puzzler, this might pop your cork but Yoshi didn't do much for me.

I am not impressed. Although the main character is different, whether it is Yoshi, Dr. Mario or Tetris, Nintendo continues to beat this old theme to death while hoping to get players to buy the game based on a popular character. If you're hard up for new puzzle games. wait a while as something good will be coming out.

Yoshi is a good twist on the Tetris theme, but the game play of the NES version leaves much to be desired. Like Tetris, the GameBoy version played better. The colored graphics are cute and the sound is a little different, but overall, the game lost a bit in the translation. An above average puzzler though.

Yoshi enjoys plenty of Tetris-style action plus the humorous graphics reminiscent of some of my favorite games. The colors are vibrant, but I can't see giving Yoshi on NES anything better than the GB version. The game is the same, but its just in color. It is fun and addicting to play but lacks variety.

Light Boy is Bound to Attract Attention

The campfire has died and the marshmellows have been roasted. Now, thanks to Light Boy, the fun really starts! All my Game Boy equipment is safely stored in the Light Boy GAME KEEPER, which is great for on-the-go gamers, like me.

The Vic Tokai Light Boy is too cool. Not only does it magnify the LCD screen 1-1/2 times, but it also comes with batteries! And unlike other accessories, Light Boy has replaceable lights, so the fun goes on forever! It's no wonder **Light Boy** is bound to attract attention.

Genesis - Namco SPLATTERHOUSE 2

Theme: Action Available: July No. of Levels: 8 Megabits: 8

Splatterhouse 2 is here and there is nothing quite like it! Your girlfriend has been sucked into a different realm through the Pit of Death. Now it is up to Rick, the hero, to save her. Armed with fists, feet and wit, Rick will battle the slimiest, most disgusting creatures ever seen on a home game! You can pick up various items like sticks, shotguns, and chain saws to make your work even more enjoyable!

It's great to see a sequel to what is one of my favorite arcade and home games. The Genesis does a nice job of conveying a ghoulish mood, with just the right settings and a great combination of music and incredibly gross graphics. The action is pretty straightforward, but the execution and look of this game is totally unique.

A fantastic sequel to a great game. It is good that Namco decided to keep the gore in as otherwise it would have lost a lot. Definitely not an easy game as it is set on the hard side. The music is exceptional as it fits in with the theme of the game. Overall an excellent game and the best Genesis game so far this year.

Splatterhouse 2 is one of the better action games available for the Genesis. The game play could use a little work, especially concerned how the main character jumps. The graphics are as gross as possible on a 16-Bit system and the sounds are eerie. The voices are kind of cheesy but overall an above average cart.

If Splatterhouse 2 had a little better control, it would be a hot title. As it is, it is only above average. Still, if you want a good gross-out game, this is THE one! Exploding stomachs, enemies cut in two, characters eaten alive, and even more foes squashed into a gooey mess of protoplasm, what more could a kid ask for?

Genesis - Virgin CYBER COP

Theme: Action Available: Now No. of Levels: 16 Megabits: 8

You are a special agent for the 'Zodiac' team sent to investigate the U.C.C.'s inner workings. Rumor has it they are working on a new type of artificial lifeform under the codename of Freddy. Your mission is to locate the embryo for the project, retrieve it, and leave the building before it is too late! Up to six different characters can be chosen: 2 males, 2 females, and 2 droids. Are you tough enough?

Another game that tries too hard to be something that the machine can't show. This game has some fun features, but for the most part they are overshadowed by poor graphic presentation and a very repetitive nature that, combined with the visual problems, gets to be frustrating quite quickly.

First person perspective games can be a lot of fun. This takes that concept and adds body power-ups and tons of enemies. It's not an easy game, but on the other hand it isn't a game that is so hard that it is frustrating. While not for the casual player, Cyber Cop will please those who like to use their minds.

I like the idea behind this cart but the Genesis cannot handle polygon graphics very well. If the graphics were smoother and the game play had more response (it's just too jerky to really enjoy) than this cart would be much more interesting. To me it is frustrating but if you're into these maze games you'll like it.

The graphics are not tweeked enough to really show the vector graphics as they should be. The idea is wonderful, but the execution is what really matters and while good, it is not perfect. This makes the game somewhat frustrating and difficult. There is an audience for these types of maze games and they will like it.

Genesis - Electronic Arts BULLS VS. LAKERS

Theme: Sports Available: Now No. of Levels:

Live the excitement of full court basketball with Bulls vs. Lakers for your Genesis! Pick from any of the nations' top teams in a battle to win the NBA playoffs! For some strange excitement, you can even pick the same team twice! Make substitutions when players become fatigued from the action. You can also utilize different players' special moves to enhance the game! Bulls vs. Lakers is serious slammin' fun!

Everything about this title, from the graphics to the sound effects to the game play is absolutely top notch. The interaction of the players and the methods that can be used to turn around some incredible plays are fully captured in this cart. If you're into basketball and have a Genesis, this is the game you've been waiting for!

Wow! Now this is the type of basketball game that serious players have been looking for! Everything that you liked in Celtics. is here and most have been honed to perfection. Great animation, perfect player control and the patented EA instant replay all add to make this the best basketball game to date!

Bulls vs. Lakers is a big improvement over Lakers v.s. Celtics! The graphics are better and animate much smoother. The sounds are digitized. There's even the screeching of gym shoes on the court floors! The game play has been improved as well with more control of the players and bonus features like instant replay.

Alright! This is exactly the type of basketball action I've been waiting for on the Genesis! Smooth graphics, excellent sound effects, rock tight control, and added player statistics are just the thing for an awesome game for video basketball! This is certainly the perfect gift for the B-ball enthusiast of any age.

JUNIOR HIGH WAS NEVER LIKE THIS! Set off with time-travelling Davey on a rollicking adventure through the past and into the future. Genesis - Sega KID CHAMELEON

Theme: Action Available: Now No. of Levels: 60+ Megabits: 8

In the arcades, there was one game that stood out above the rest. It used holograms that grew to be a bit too real. The boss of that game starting kidnapping the players. Now it is up to Kid Chameleon, the best player in the biz, to stop him! Kid Chameleon has the ability to wear different power suits to change his form into a fly, spaceman, and rhino! With over 60 levels of play, Kid Chameleon will be sure to please!

The depth and overall theme of this game is really wonderful. Not only is the action is this game presented well, but beyond the hero-enemy interaction are a variety of other play mechanics that require you to discover just who's the best person to be in each situation. KC also gives you a lot to do in one package.

Talk about a long game! With over 1800 screens you had better plan on spending some time with this cart. The concept is very good as with tons of hidden items and bonuses this is a game which you will want to hunt and search a lot. I like these types of games as it makes the game much more than just another scroller.

Sega has a very cool idea for an action cart here. The game play is similar to Mario in a lot of ways and there are plenty of hidden power-ups and bonuses. The graphics are kind of cartoony and the music is not great but it does fit the game well. Lots of techniques and good game play make this cart a sleeper.

Awesome!! Kid Chameleon is the most radical video game hero to come around since Sonic! If you want a REAL challenge, take on the video game adventure of a lifetime! With over 60 levels, 10+power-ups, and above average game play, Kid Chameleon is a must for anyone who likes Mario or Sonic!

Genesis - Electronic Arts
WHERE IN TIME IS CARMEN SANDIEGO
Theme: Educ. Available: Now
No. of Levels: N/A Megabits: 4

Carmen Sandiego has pulled off some of the biggest crimes of the Century! As a member of the Acme Detective Agency, you must track this notorious criminal to her hideout and arrest her. Carmen Sandiego is an educational game with humorous sidelines. You use the chronoskimmer to travel anywhere in time to question people and explore the towns. Where in Time is Carmen Sandiego? You find out!

The fact that the Carmen games are educational as well as fun to play is a nice plus. While the game is a bit slow and never really manages to get the blood boiling, the idea behind it, as well as the manner in which the game play is presented are nice. Carmen may lack big guns, but it is a leisurely play.

Edutainment. This game offer the perfect blend of fun and education. If you have a family, or younger children, you will definitely want this cart as it will subconsciously teach you history and geography while you track down cute criminals. Not for players whose only goal in life is to save the planet.

This cart will appeal to a very small group of players. The graphics are not very intense and the music is repetitive and gets annoying after long play times. The game play however is very interesting, with plenty of history and geography thrown in. You may actually learn something! Not my type of game, but not bad.

Here is an excellent game for kids, since not only does it pose an interesting quest, it promotes learning and research as well. As a stand-alone game Carmen really packs the power with special handbooks and materials included with the cartridge. All parents will like this game, too, as it appeals to all ages.

Genesis - Ballistic WINTER CHALLENGE

Theme: Sports Available: Now No. of Levels: N/A Megabits: 4

The Winter Games are over but you can re live all the action with The Games: Winter Challenge. Up to nine players can compete for the gold metal. Choose from eight events like the biathlon, downhill skiing, and the Louge. Play in any of these events and if you do not have enough practice, you can train for the event and build up confidence. Go for the gold with Winter Challenge by Ballistic!

This game fails to capture any of the excitement you'd expect if you were competing in such winter sports. Many of the game's events are simply repackaged over again and the cart really falls short when it comes to graphic and animation presentation. It's a lot of fun to wipe out, but the game play just isn't there.

I had hoped that this cart would be a great winter olympics sports sim. While most of the sports are there, they all aren't the best ever done on this system. Some of the events are very hard to master the controls and I really had hoped that the graphics would have been better. As is the game is only average.

Winter Challenge is a computer game to the core. The graphics aren't as smooth as they could be, and there isn't much variety from event to event. The best thing about this cart is the wicked spills you have during the events. Try wiping out on the long jump and then use instant replay, it's very amusing.

This game has a good variety of events and if you like winter sports, you might like to check out this cart. Unfortunately the sports aren't detailed enough to be able to play without an instruction book. Wiping out is fun though except when you are trying your best to complete an event. Too hard to master and not a lot of fun.

Neo•Geo - SNK MUTATION NATION

Theme: Fighting Available: Now No. of Levels: 6 Megabits: 54

SNK introduces its newest fighting game for the Neo•Geo system, Mutation Nation. You are on a mission to rid the streets of the gangs that are taking over the city! Two players can join in to battle the six stages through the city streets. You can collect four special powerups including a lightning blast and tornado blast! With 54 megs of memory, Mutation Nation is a fighting tour-deforce!

I like the way SNK has packaged your typical punch and kicker into a more futuristic setting. The action is decent with graphics and sounds that are great even by Neo-Geo standards. The game loses a point for its unlimited continues, however, which turn it into a one-time play. If you can resist, however, it's a winner!

Talk about great graphics and sounds and you'll find none better. Of course, this IS an arcade game. Unfortunately, for all this detail you need a lot of memory, and memory means bucks. However, if you have the system this is definitely a must have game and one of the best SNK has done in a long time.

Mutation Nation is one of the better Neo Geo carts available. The graphics and sounds are top notch. The game play is your typical sidescrolling punch and kick with a few power-ups thrown in for good measure. The biggest fault is the unlimited continues feature that insures you'll see the ending the first time you play.

Wow! It's been a while since I've seen a decent Neo Geo game hit the market, but Mutation Nation definitely hits the mark. It still is tough to pay the money (unless you are hopelessly rich), but you will enjoy the crisp graphics and arcade feel. This game could have used more levels, though. Are we seeing the limits of the Neo Geo?

GameBoy - Nintendo YOSHI

Theme: Puzzle Available: Now No. of Levels: N/A Megabits: .5

Mario's dinosaur pal, Yoshi, is now starring in his own GameBoy game! Similar in play to Tetris, Yoshi stars the characters from the Mario series of games. You control Mario as he tries to catch the falling characters before they hit the ground. Then Mario can rotate the pieces so you can match up one, two, or three pairs. The more you manage to clear, the faster they fall and the more points you receive!

This game does better on the smaller GameBoy screen when compared to the 8-Bit NES. Although the puzzling action is essentially the same, the portable power of the GameBoy make it more fitting for this type of title. It's still a puzzle game, however, so anybody looking for laser cannons should beware.

game review

Yoshi is a cute play on Tetris. The game play is a bit different and there is more technique to it. The graphics are good and you'll see many recognizable faces from the Mario games. The music sets the mood well and the game play has that addicting quality and most of all it's fun. For a green dino, Yoshi's one hot dog!

Ahh, Yoshi, the cutest dino to ever hit the video scene. If any character deserved his own game, it's Yoshi, and what a good game it is! Perfect for the limited Game Boy format, Yoshi enjoys plenty of Tetris-style action, plus the humorous graphics reminiscent of some of my favorite games. Oh, black & white stinks.

GameBoy - LJN NBA 2

Theme: Sports Available: Now No. of Levels: N/A Megabits: 1

NBA 2: All Star Challenge is hot basketball action on the small screen! You can go one-on-one with another player, enter a free throw contest, and even enter a slam dunk contest for points and prestige! When shooting for a slam dunk, the view changes to a side scrolling cinema display! You can also choose from 25 actual players to play as or play against. For some fast court action, NBA 2 delivers!

While real fans of basketball will find something to like about this game, it's hard to shrink the scope of the sport down to a size the GameBoy can handle. The graphics in this title are somewhat short on detail, but its overall representation of the sport isn't bad. With some minor problems, this game does O.K.

game review

This cart is a good attempt at bringing basketball to the GameBoy in a whole new way. I like the variety of events, there not enough control over the shots to really be accurate. I'm not impressed by this cart's graphic or sound quality either. If you're a hardcore B-ball fan and picking reall NBA players excites you, go for it.

I am seriously getting tired of living in the stone age. Wasn't Pong the first black and white system? Anyway, companys are still wasting valuable programming time and money developing poor Game Boy titles. This is a good game, but it would earn at least two more rating points if was in color. Sorry; it's sad, but true.

GameBoy - Data East NAIL 'N SCALE

Theme: Puzzle Available: Now No. of Levels: 50 Megabits: 1

Nail 'N Scale is a new puzzle game for the GameBoy! Your character has nails that he uses to climb walls and scale walls while also allowing him to destroy enemies! The enemies are ruthless in their attempt to stop you from exiting any of the 50 available mazes. You can collect enhancements for the nails that increase their power. Take on the bosses at the end of each round only to appear in another maze!

What this game lacks in graphics quality it more than makes up for with solid play mechanics and enough technique for two games. While the cart is basically a puzzle game, it takes many of the most common risk incentives found in the genre, adds some new twists, and produces an end result that's actually original and fun!

This is going to be one of the 'sleepers' this spring. There is no big name on the game but what it lacks in title it more than makes up in game play. Best yet it is fun! Lots of levels to keep you busy and they won't be easy as this is a technique game. While the GameBoy doesn't offer hot graphics this cart is fine the way it is.

An original cart with great game play and lots of potential. The graphics are nothing revolutionary but the game play is solid and very fun. This cart reminds me of the first generation of games like Dig Dug and Lode Runner. Loads of techniques and50 levels to conquer make this a great GB game to pass the time.

Solid game play is the est feature of this cart. The puzzle aspect of Nail-&-Scale keeps my interest, and even makes it slightly addicting. Once you pick it up you will either have a hard time putting it down, or you will hate the blurring. It is a good game, but once more the hardware kills the excellent software written for it.

Lynx - Atari BASKETBRAWL

Theme: Sports Available: Now No. of Levels: N/A Megabits: 1

Basketball was never quite like this! Basketbrawl for the Lynx is a new concept in sports, beat the opponents that get in your way! There are no rules. You can punch, kick, and stab your opponents any time you wish! A variety of weapons appear from time to time like a whip and dagger. The game is set on the city streets where its just you against your opponent! Basketbrawl is the name and punishment is the game!

A great idea that is poorly put together. Basketbrawl holds the promise of great basketball action as well as street fighting overtones. In the end the cart fails to achieve high ratings for either, instead ending up as a choppy sports game that can't make up its mind what it want to be or how the fighting should impact on play.

In concept, this game has a lot going for it. A violent basketball game would work good on the Lynx however, player control is critical, especially on a screen the size of the Lynx's. Unfortunately I couldn't get it down pat and this burt the game play. It really does turn into a brawl after a while but that's about it.

I was very disappointed. The idea of street fighting basketball really seems cool. When it's plauged with choppy animation and jerky control. The game has a few cool features, gang members throw knives at the players from the stands. This cart leaves plenty to be desired and shows little effort from the big A.

This is a cart that was meant to be so much more! Once you play Basketbrawl, you will instantly see how thin the game play really is. The graphics could be better, and the sound effects lack realism. Variety is non-existent, but the underlying humor is a plus. Just try going after the crowd and you'll see what I mean!

Lynx - Atari RAMPART

Theme: Strat. Available: Now No. of Levels: 8 Megabits: 2

The arcade classic, Rampart, is making a new appearance on the portable Lynx! Relive moments from historic England as you struggle to build your castle, only to have it destroyed by a fleet of marauding ships! Place cannons in your castle walls to blow the ships out of the water! Eight levels of action keep you fighting to protect your lands. If you want a perfect strategy game for your Lynx, look for Rampart!

I like the concept behind Rampart more and more each time I play it. This portable version does a good job of getting the game down to size, complete with some nice graphics and a keen understanding of how the play mechanics should operate. A great action-puzzle game done well on the Lynx.

Rampart is a great strategy game and now that it is portable it is even more fun. Fantastic graphics, good cinemas and impressive sounds help make this a sure hit for Atari. It is very addicting and hard to put down. Even on the small screen the game is easy to watch and worth looking into.

Rampart for the Lynx is pretty good. The opening scene is totally cool and the cinema displays during the game play are awesome. The game itself is a great translation. The sounds are digitized and the graphics are near perfect. The game play is just right and will hook you right from the start. New hope for the Lynx!

Rampart is an okay game that I never really got into in any format. Still, on the small screen it seems more at home. It is almost as if it tried the big screen scene, and decided to play it safe. While not a major contender, Rampart may well be a sleeper hit among certain crowds, so I will give it the proper respect it deserves.

We've got lots of fun and games this issue, so sit back and get set to get in the know...Mega-hot news for all you hardware heads! We've all heard of the CD-ROM Play Station from super player Sony, the 32-Bit Giga-Drive from Sega as well as the 64-Bit Jaguar from sometimes serious Atari, but the Q-Master has dug up the deepest dirt on still more mega machines in preproduction and glossing for an American launch in the next year or two. Heading the bunch is a system being designed by the same group responsible for the TurboGrafx-16. Before you Quarter-maniacs let out the big yawn, yours truly is here to fill you in on the straight scoop! Code-named the Phoenix, this super machine not only employs 32-Bit technology, but also uses an advanced graphics chip that, besides providing the scaling and rotation that are a must in post-Super NES video gaming society, will enable game programmers to utilize digitized images as well as conventional graphics! Although many of the specifics of NEC's 32-Bitter are up in the air, including the sound system, the Q-Mann has also learned that the machine will be CD-ROM specific. Don't hold your breath waiting for this hottest of game technologies, however, because a formal introduction won't be made before the middle of next year!...Look for Electronic Arts to get into the console wars with a new machine being produced in conjunction with Matsushita! The unit is being developed by a company owned by both electronics-titans and will be based around a CD-ROM specific format! More details to come...

The master of the rumor mill has locked down info from within the big 'N' that translates into a big thumbs-up for their super CD-ROM system! Besides boasting a faster processing time, a system cartridge that can be upgraded, and an expanded DPS processor (the one that gives you the Mode 7 glitter), you can also expect faster access time for little or no slow-down! Now whether or not the spinning discs arrive at the \$200 price Nintendo has boasted remains to be seen...Speaking of price tags, what's the deal at Capcom?!? Sure, the Street Fighters were nice enough to get us in the ballpark and announce a mega-joystick, but what's with the big question mark on the retail cost, why is Nintendo removing the blood and guts, and how come the release date has been postponed again? A release date has been announced in Japan as well as a price (around 75 bucks). Have you ever heard of mail order? I know the Quarter-fiends have...

...Here's one to file under 'S' for big stinky-poo! Any of you who finally got your mitts on a Zelda 3 cart have discovered that the cheese-heads at Nintendo decided to blow their biggest game of the year by packing in a road map to get around all of the nastiest mysteries and hardest areas! I don't buy it, big 'N'. That quaint little disclaimer about personal fortitude and how bad it is to use little booklets that ruin video games that us poor saps spend seventy bucks on just doesn't cut it! If it bothers you so much, why is it in the box?...

...Get ready for a jolly '92, and an effervescent '93 in the software department! Top on the Q-Mann's list of upcoming entries is the fifth, yep, you're counting right, the fifth installment of the Mega Man series! Get ready for a whole new cast of robotic crazies for your Nintendo 8-Bit! 8-Bit? When's Rock gonna make it to the Super NES?...The Terminator saga, however, will continue on the Super NES when Acclaim brings Arnie to the 16-Bit screen! Still no word on how this soft plays, although the rumor has it that this game will NOT be based on the digitized destruction seen in the Midway quarter-muncher...The Terminator may make his digitized debut on the Mega-CD, however, courtesy of Virgin Games! In addition to a new version fully hyped with actual footage from the game, the boys at Virgin also plan a take-along cart for the Game Gear!...Also expect M.C. Kids on the Super NES and Genesis as well as a secret license that will knock you out from Virgin...That's it for this action-packed episode! Be sure to take care my little Quarter-friends and keep your hands off my Twinkie...

FIRST LOOK AT SUPER NINTENDO CD-ROM SCHEMATIC

One of the biggest surprises at the Winter Consumer Electronics Show was Nintendo's announcement of some of the specifications for their upcoming Super Nintendo CD-ROM drive. Their press release stated that their unit would be in the stores as early as January 1993, and that it would sell for only about \$200! Add in the fact that almost all of the specifications they published equalled or exceeded the ones for Sega's Mega CD-ROM, while the price was only about half of what Sega's unit was selling for at that time in Japan (\$370).

After this announcement, Nintendo went back into seclusion and the editors at EGM started to pull together every possible detail available from all of it's World Net sources. This search, piloted by Mr. Michio Ohashi, Editor of The Super Famicom magazine in Japan, has turned up new information compiled from industry sources and analysts.

21 MHz. COPROCESSOR!

The most important new fact was additional information on the coprocessor that will be used to assist the main CPU. Sega's CPU runs at a healthy 7.16 Mhz and its Mega CD-ROM coprocessor clocks out at a speedy 12.5 Mhz. One of the problems of the Super Nintendo is the fact that its CPU runs at only 3.58 MHz. Sources are indicating that the coprocessor which will be in the S-NES CD-ROM System Cart will clock out at an unbelievable 21 MHz. This coprocessor (SCCP) was developed by Nintendo for their new CD-ROM system. Since this chip will aid in the calculation functions of the game program, usually the faster the chip, the more it can do.

Most of the S-NES CD-ROM functions will be handled by the new coprocessor.

The system cart will contain all of the 'brains' for the S-NES CD-ROM.

SEPARATE SYSTEM CARTRIDGE

The schematic at left shows another advantage the S-NES CD-ROM will have over the Mega CD-ROM. With the coprocessor, extra RAM and ROM packed in the removable system cart, should any future new technology require the system to be upgraded, all that the user will have to do is to buy a new system cart.

NO SCREEN FLICKER

Some of the S-NES games have visible slowdown and screen flicker. Put too many characters on the screen and the slow CPU can't handle all of the processing and the action. Now with a super-fast coprocessor, analysts say that slowdown and flicker will no longer be a problem.

REALISTIC 3-D ANIMATION

In addition, the S-NES coprocessor has been specially designed to be able to recreate animation sequences. Because of the coprocessor's great speed, the S-NES CD-ROM will be able to display full-screen animations. Also, because of its speed, the coprocessor will be able to handle the tremendous number of calculations needed in fast moving 3-D polygon graphics (racing games) without bogging down (slowdown).

"AN INCREDIBLE MACHINE"

While it is still way to early to say whether Sega or Nintendo will win the CD-ROM race (the quality, quantity, price and availability of software will determine who wins), analysts who know the market have gone on record in saying that based on specs and price, the S-NES CD-ROM will be "...an incredible machine..."

STREET FIGHTER 2 JOYSTICK NEARING COMPLETION

With the release date of the hot Super NES cart - Street Fighter 2 rapidly approaching (June 10, 1992 in Japan and June/July in the U.S.), Capcom is putting the finishing touches on their new controller. It is to be called Capcom's Competition Joystick™. This super joystick is currently scheduled for release at about the same time as the cartridge.

Shaped like a wide V (to match the stick/button angular configuration on the arcade game) with a tapered 'wedge shaped' base, this controller is currently planned to be much more than just a single purpose, one game only, stick. In fact, Capcom has built in almost every possible feature to make you want to use this as your main controller.

Besides the obvious 6 buttons and arcade-style joystick, the controller has a lot of other nice features. There are three buttons for auto fire, and a switch that lets you make your joystick work in either 4 or 8 directions. Japanese sources state that a slow motion control will be built in but recent photos do not confirm this rumor. The game start and game select switches are on the left side, and the power switch (to reduce battery drain when not in use) is on the infrared transmitter. Of course you will want to

- 10 A Button
- 11 B Button
- 12 C Button

- 15 Infrared Receiver

Capcom's new Street Fighter 2 joystick will be released the same time the cartridge comes out. Designed to be a 'universal' controller, it will work with both the NES and Super NES game systems!

Connect the optional infrared wireless module and play cord-free up to 15 feet away!

be playing Street fighter 2 with a friend, and when you do, he will want to be using one of these controllers also. To avoid any problems of the infrared receiver getting its signals mixes up, there is a switch that gives each of your controllers (up to 4 total) a different infrared signal pattern.

Current plans are to have the infrared transmitter and receiver as an optional, extra-cost addon device (no price yet).

In addition, the controller is also planned to be useable on your older 8 bit Nintendo system. An optional, extracost NES plug is scheduled to be available in the near future (no price yet).

As you can see from the pictures this is not going to be an inexpensive controller. While a price has not been set yet, expect it

to sell for about \$60. Double that if you will want to play against a friend and add in the price of the cartridge (about \$75). The total cost...\$200! Ouch!

CAPCOM OF JAPAN SETS PRICE ON STREET FIGHTER 2

Capcom of Japan has announced that their game Street Fighter 2 will be released in that country on June 10, 1992 for a suggested retail price of 9,800¥. This converts to about \$75 U.S.

E.A./MATSUSHITA TO DO NEW CD-ROM GAME SYSTEM GALOOB TO SHOW GAMEBOY GENIE AT SUMMER CES PHILLIPS DEVELOPS NEW CD-I VIDEO COMPRESSION CHIP

CD-ROM. First there was NEC. Sega jumped in next, and JVC joined in with them. Nintendo split with Sony and latched onto Phillips. Sony would like to work with Nintendo but they may have to do it all alone.

Getting confusing? Too many systems? It's not over yet! There still is one more 'giant' left in Japan who hasn't gotten a piece of the CD-ROM pie. Until now!

The company is Matsushita. If it doesn't sound familiar, how about the name Panasonic?

Here's the story on a new top secret project that starts in the U.S.. Late last year the San Mateo Software Group (SMSG) was created. Not particularly newsworthy except that it was established by Electronic Arts! As a goal, the SMSG set out to create an all CD-ROM based video game system. This they have already finished and rather than tie in with any of the already announced CD-ROM formats (Sega, Nintendo or NEC) their format is all new.

Enter Matsushita. Just recently the Japanese financial trade press noticed that Matsushita has taken a stake in the SMSG. In addition, a spokesperson for Matsushita has confirmed that talks with Electronic Arts are under way, but nothing has been finalized yet. Although they have a capital investment in the SMSG, Matsushita still has to work out who will develop and manufacture the new game system. Once the details have been finalized between the two companies, then the project will be officially announced.

With EA now personally involved with its own CD-ROM system, new questions arise. Will they still support the Genesis and S-NES CD systems? More next month!

EGM has learned that Galoob (distributor of the Nintendo 8 bit Game Genie in America) will be showing a finished version of the long rumored GameBoy Game Genie at the Summer Consumer Electronics Show. It won't be on display for Consumer Days though, as it is being kept under wraps, and it will be shown behind closed doors at a private hotel suite, and then, only to key accounts.

Even though the GB Genie is finished, sources indicate that Galoob is still concerned about Nintendo holding up production with another frivolous lawsuit. Like the U.S. NES Game Genie, the GameBoy version will not be a licensed Nintendo product.

The GB Genie was developed by CodeMasters of England (the same group that developed the NES Game Genie) and Galoob will have the exclusive U.S. rights to market the GB Genie.

The GameBoy version will work the same way as the Nintendo and Genesis versions operate. The GB Genie slides into the cartridge slot, and the GB cartridge will slide into the other side of the Genie. When the GB is turned on, a passcode screen appears and you can enter the appropriate Genie code by selecting the letters with the cursor. Galoob will pack a book of codes with the GB Genie, and they will make available code updates in the same addendum-type mini-book format as they are doing now. As of press time, a price has not been set for the GB Genie.

On another similar point, sources confirm that Galoob/Codemasters is also working on a Super Nintendo version of the Game Genie. Even though the Genie itself is rumored to be finished, the S-NES project is being held up due to the lack of a sufficient number of passcodes. This version is also scheduled for an end of year release. No price yet.

Earlier this year, Phillips of America, demonstrated their version of realtime decoding of Full Motion Video (FMV).

What Phillips has been able to do is to take 72 minutes of full motion video (a movie for instance) and to compress the data approximately 100:1. The data was then stored on a standard 5" CD disc. On playback, the new Phillips chip was able to decompress the full motion video 'on the fly' (no lag time for disc access) and in real time. In other words, the CD-I player was able to function just like the popular laser disc players. The results? Truly amazing! Standard VHS tape (prerecorded movies) has a resolution of about 240 lines. Laser disc has a resolution of around 400 lines and the new CD-I disc came in at 320 lines of resolution. The advantage of CD-I -- it only costs about 60¢ to press (make) a CD-I disc. Just a fraction of the cost of VHS tape or laser disc.

How does that affect game players? While still speculation, remember that Nintendo S-NES CD-ROM discs will play on CD-I machines. What if Nintendo would build into its CD-ROM system cart the new Phillips chip, or a version thereof. Just to be able to playback compressed data would multiply the CD memory by 100.

Is that important? Very much so. Even with 4.4 gigabits of memory on the CD, that translates to only about 2 minutes of 'broadcast quality' FMV. Sega and NEC are able to stretch that amount by drastically reducing the color palette and also reducing the frame rate from 30 to about 15 frames per second, and it shows. If Nintendo masters data compression, their CD system will rule the market. Another advantage Nintendo will have is that if CD-I catches on and really becomes popular, everybody who owns the new CD-I players will be able to play the S-NES CD-ROM discs. Continued next issue.

SMASH T.V.

(Acclaim/Nintendo)

Circuit Select - You need two controllers to do this trick.
On controller 2, press and hold DOWN and button B.
Now, press START on controller 1. You will have to pick one player and one con-

troller. Press START on controller 1 and a circuit warp screen will show up. You can then choose from circuits 1, 2 or 3.

> Mark Howell Alton, IL

Make sure you pick one player and one controller.

You can select which circuit you want to play.

SHADOW OF THE BEAST

(Electronic Arts/Genesis)

Game Action Replay Code - You MUST have a Game Action Replay unit to make this code work. To become invisible throughout the game, simply put in the following password on the code input screen: 00684 E6209. This will make your player invisible, but not immune to attacks. When you punch, you can see your hand; otherwise, you cannot be seen!

GET A GAMEHANDLER®!

The **GAMEHANDLER** controller lets you revive the investment you have in your NES™ games now, then later you can expand **GAMEHANDLER** to work on the 16-bit Super NES™ when you trade up.

CONTROL

3021 Bethel Rd. #108 Columbus, Ohio 43220

Here's a neat trick you can do only with GAMEHANDLER! If you've already beaten Super Mario Bros. 1 from Nintendo, now you can add a new challenge. Tip your GAMEHANDLER controller upside-down and see if you can beat the game running backwards. Now Mario has new dangers and new timing for his jumps, and even throws his fireballs backwards.

Cowabunga, Dude! Here's an awesome trick for Teenage Mutant Ninja Turtles 2 from Ultra. Again only with the GAMEHANDLER controller you can Hyperwarp—actually disappear and reappear around the screen. When you push your jump button on GAMEHANDLER, quickly flick your wrist right or left. This is helpful when the bad guys surround you on the higher levels.

CONTRA 3

(Konami/Super NES)

Sound Test - If you would like to hear all of the incredible sounds and music in this game, just try this method. On the title screen, press RIGHT and DOWN very quickly while rapidly pressing the X button until you hear a ringing sound. The sound test screen will appear after this has happened and you may now choose from an array of sounds and music. If you have a rapid fire control pad, set the X button on automatic and do the trick.

Note: Trick works on Japanese version of game.

American version may vary.

CONTRA 3

(Konami/Super NES)

Double Weapon - If you have a rapid fire control pad, you can do this trick. First, start the game and put the rapid fire on the X button. You will see the weapons at the top of the screen change back and forth very rapidly. Once you get two different weapons, you will see that you can use

both of them at the same time. This will help you in defeating some of the tougher enemies and bosses throughout the game. The only weapon that this is not good with is the flamethrower, which will not respond to this trick.

The two weapons (spread and laser shown here) will be alternating rapidly.

Once you get a new weapon, it will replace the old (spread and crusher shown).

THE LEGEND OF THE MYSTICAL NINJA

(Konami/Super NES)

Extra Supplies Code - With this incredible code, you will have all the essentials possible in order to defeat the game. First, start off the code by typing in the following password on the "Logbook Entry" screen:

6♥KjG RVGG! yBgMR %∆G:: v>G=♥ GRPG♥

This code will NOT work, which is the purpose of it. Then, without deleting the non-functional password, back up to the very begin-

ning of the page using the arrows at the bottom of the screen. After you do this, type in the following password over the previous one:

rzT\$> L1>X9 q+TD∆ ZR>?? q/>zD >∆H>z

This will now start you off at level 9, but only Kid Ying will be on the screen. Press the A button on controller 2 and you will see that Dr. Yang is completely powered-up! You should have no trouble winning now!

Mark Strege Lake Elmo, MN

THE ADDAMS FAMILY

Timing is very critical!

B&1&B - 5 hearts, 80 lives and Granny and Pugsley rescued.

Enter any of the passwords on this screen.

STREET FIGHTER 2: CHAMPION **EDITION**

It has been two years, and the 12 World Warriors have gone back to training for the next challenge - Street Fighter II: Champion Edition! Now you can control the boss characters as well in their quest for world domination. Every character has been enhanced with new exciting changes that turn the tables on previously "unbeatable" characters. As you can see from the chart below, the stats have changed, and now Ken is the most powerful character in the game. Even Ryu beats out Guile in overall ratings. Even

so, gamers can play any character versus him/herself, so there is no excuse for losing!

Some new moves/changes are: Ken's deadly fierce dragon punch not only has a wide range, but it also allows him to do a fearsome triple dragon punch more deadly than Zangief's Screwdriver ouch! His light-speed hurricane kick is a valuable weapon now, and if a character is caught off-guard, look out! Ryu's fireball is faster than Sagat's, and his hurricane knocks any player off their feet in one hit! Chun Li has new close-in kicks that can surprise newcomers. Her wind kick is a powerful weapon, too. Blanka is a formidable foe thanks to his speedy shock attack and increased stamina when hit in a ball attack. Guile has a worthless knee attack and a cool double jackknife kick. He still recovers quickly

Ken in Red vs Zangief in Black!

Sagat vs Vega!

after Sonic Booms. M.Bison does damage with his torpedo and flip kick even if blocked, and Vega can perform a wall climb anywhere. Sagat wield ne deadly (up close) Tiger Knee and a throw. Balrog can headbutt and throw power hits all day. Zangief and E.Honda can move with their power punches (Spin Punch & 100 Hands) but otherwise, no improvements. Dhalsim, sad to say, is not very different other than the speed of his torpedo moves, and the power of his headbutt. Luckily, each character has a weak point for at least one World Warrior to exploit. The table stats will most likely change over the next year, but so far, Ken is taking the lead after a quick sprint from Vega, Blanka, Chun-Li and M.Bison.

All characters were redrawn with subtle differences, except for Dhalsim, Guile, Ken, and Ryu. They have been given addtional muscles, smirks, and gyrations for realism. The backgrounds sport different colors, too. All in all, Street Fighter II is the game of the year.

DARK SEAL II

Adventure games like Gauntlet and Cadash have been popular in arcades for some time now. Deco has recently released its latest coinop adventure with Dark Seal II. As with most arcade adventures, you get to choose the character you want to play. Each of the five warriors has different skills, abilities and disadvantages. Pick the character with the powers that best suit your style of game play. Choose to play as the Knight, the Wizard, the Bard, an Elf or a Dwarf!

Each of the five characters has different skills to help them through the adventure. Pick the one that fits your style of action!

Your journeys in Dark Seal II will bring you against many powerful and dangerous foes. Using your skills as a fighter and your powerful magic spells, you must battle your way past dragons, demons and other evil beasts who would like nothing better than to eat you for dinner!

Fire-breathing dragons are one of your toughest opponents in Dark Seal II. You must avoid the stream of fire while trying to hack through its tough hide.

Two players can explore at the same time. With wise choices, the two characters can complement each other's skills. For example, the combination of the Knight and the Wizard gives you powerful attacking and defensive strength with the magical muscle needed to get past some of the more deadly enemies.

Not only will you have to battle the evil monsters in your path, but you must also contend with tricks and traps that have been placed in your path. Dark Seal II is more than just a test of your ability with the joystick. You are going to have to think to get through many of the difficult puzzles and tough traps.

battle could become a treasure trove for you and your character. Many of the treasure chests you find and the creatures you fight will have items of magical power that can make you stronger and aid in your quest. If you are playing a in two player mode, spread the magic items out among both characters to strengthen them both and give you a more balanced attack in combat. Use teamwork to get through the tougher areas. Spells work well against enemies far away from you and against stronger foes, while the physically stronger characters like the Knight should have no problem wading into battle against the weaker opponents.

NEW SOFT NEWS

As CES approaches, the video game companies are starting to talk more about the games that they will be bringing out this fall. Accolade is working on a S-NES version of their Test Drive 2. A GameBoy version of the arcade classic Centipede is coming soon. Activision plans to have Mech Warriors for the S-NES out during the 4th quarter. ASC is likewise, working on new S-NES titles. Super Power Punch should be out by Christmas. Bignet is moving ahead on new Mega CD-ROM titles. Their newest project -Sticky, is an action adventure game. Heavy Nova 2 and World War 3 (working titles) are scheduled for release later this year. Atlus plans to convert their humorous Wacky Racers to GameBoy. Data East is jumping on the S-NES bandwagon with Mutant Fighter. They haven't totally left the Genesis fold though, as Captain America is scheduled for September. Konami's new GB game - Zen: The Intergalactic Warrior should make it this year. Mentrix has Nolan Ryan's Express for the Genesis, and Renovation is working on Death Bringer and Grand Slam Tennis for the same system. The unnamed Sofel boxing game is now called TKO Boxing. It is for the S-NES. Razorsoft plans on doing Jerry Glanville's Pigskin Footbrawl and Keeper of the Gate (was Stormlord 2) for the Sega 16 bitter. American Sammy is bullish on the S-NES as Sorcerer's Kingdom and Ultimate Football are new 16 bit Nintendo titles. Still no word on anything from Sega for any of their systems.

The levels are intense in both action and graphic presentation. One of the levels has the Toads walking on a tile floor with a perfect mirror image shown in the reflective tile below their feet!

Don't forget, Super Battletoads is a two player simultaneous game with no slowdown!

Although this game is still in the works, you can count on EGM to show you more and more great aspects of the game as it becomes available to us!

Notice the reflections of the Toads in the floor! This is just one of the many new features!

UTOPIA Jaleco / Super NES

Utopia is a game about the construction of a near perfect place for people to live. Set in a futuristic timespan, Utopia places you in command of developing this colony to full growth. This is not as easy as it sounds due to an alien race that keeps attacking your colony.

You start on a barren landscape that you build up by using command icons located on the right side of the screen. There are 25 buildings to choose from including laser turrets to defend the colony, living quarters for your people and life support buildings that recycle unbreathable air to breathable substances.

If you can hold off the alien attacks and keep your people happy, you just might have what it takes to create a true Utopia.

You start off by looking at a basic landscape. Use the icons at the right to construct buildings, wipe out unsuitable living areas and connect roadways.

Once you have an area set up, your people can begin to rebuild their lives.

The Senior Advisors inform you when there is a problem. You can refer to them as often as needed!

SPOTTMII* Virgin / Super NES

The famous 7-UP Spot is starring in its very own video game! Based loosely upon the classic board game Othello, Spot II breaks new ground in innovation! In Othello, the pieces change according to the end piece placed upon a row, but in Spot, the pieces change color around a central piece! After each level is complete, you get to see a cinema display showing Spot in different situations like surfing on a 7-up bottle or building a sand castle.

Here, Spot is seen surfing on a 7-UP bottle through the ocean.

Spot name and 7-UP logo™ & © Seven Up Company

In this cinema, you get to watch Spot build a sand castle while dodging little sand crabs. After this, you are onto stage three.

HEAVY NOVA II* Bignet / Mega CD-ROM

Heavy Nova was such a hit when it landed on store shelves that Bignet is releasing a sequel with the working title of Heavy Nova II.

If you remember, there were some points in the game with no enemies. That has now all been changed. Everywhere you walk, there will be enemies for you to attack! There are 10 stages of one-on-one robot action, along with more animated cinemas that will be part of the new CD-ROM version. Expect this to be one of the first third party Mega CD discs.

Here, a rival robot throws you around like a rag doll!

The Next Possessi

In the combat scenes, you fight against a fellow robot.

*Heavy Nova II is the working title and is subject to change.

each tick of the clock brings you closer to eternal damnation! Seven burning stages, vertical and horizontal scrolling, 3 difficulty levels each with a different finish. So... Possess Devilish for your Sega, before it possess you!

Sage's Creation, Inc. 12062 Valley View, Suite 250 Garden Grove, CA 92645

Also available for your Sega GameGear!

MOON CRYSTAL DTMC / NES

Most of the people you encounter won't look friendly...they aren't!

The fight along the clock tower contains many new surprises.

Moon Crystal is the newest action title released by DTMC. You must recover the stolen Moon Crystals from the thieves that nabbed them. Your journey will take to many new and faraway lands.

This an overview map that plots your progress.

The enemy will attack you with daggers, hatchets and other weapons.

Aboard the ship you must face hoardes of nasty pirates!

BASEBALL STARS II SNK / Neo•Geo

Baseball Stars II is a baseball fan's dream come true! Not only do you get real home run action - right out of the arcades - but this version has a different twist to it!

You can purchase power-ups like a blue bat that gives you the ability to hit a home run almost every time! There are also close up shots of the players as they run to bases, catch fly balls and slide into home!

Baseball Stars II also features two player simultaneous action for an exciting day at the ball park!

It's so fast, it'll make your teeth rattle. So intense, it'll make your toes curl. So action-packed, you'll go rocketing, blasting and splashing your way through 8 stages in this Super NES Action/Arcade classic. It may take facing horrific 3-D creatures and multi-level scrolling. It may take a will of iron and nerves of steel. But you've got what it takes! Even if you have to hurl.

DEATH VALLEY RALLYSunsoft / Super NES

Sunsoft is working on its latest title for the Super NES entitled Death Valley Rally! You play the Road Runner as you try to outwit and outmaneuver the cunning Wile E. Coyote in a race for your life. Many traps are set alongside the road to trap you, with some set up by Wile E. himself. Beep Beep!

ANDRO DUNOS SNK / Neo•Geo

Andro Dunos is the latest side scrolling shoot-em-up for the Neo•Geo. You must pilot your fighter through hordes of alien ships. Blast them away with tons of power-ups you collect throughout your odyssey! You can even have another player join in, if the mission is too rough to go alone! It is a great shooter on its way!

PRINCE OF PERSIA Virgin / NES

An evil wizard has kidnapped your beloved bride-to-be! It is up to you to save her! Prince of Persia is an action game like you have never seen! You have one hour to save her, but you must contend with the wizard's henchmen while also dodging various boobytraps throughout the levels. Hurry up! She is waiting for you!

FINAL FANTASY SAGA Square / GameBoy

Cecil comes to another town near the river. What surprises could be in store once you enter? Maybe a future party member is here!

The legend continues with Final Fantasy Saga! Cecil has found himself on another mission to seek and destroy an evil armada attacking Cecil's homeland. He must visit various towns and recruit soldiers to aid him in his mission. Use the gold pieces collected from fallen enemies to power up your party with new swords, armor, and shields. You will journey mostly by land but later on you receive a fighting ship from an old friend. If you own the first two of the series, this third one is definitely worth looking into!

In Final Fantasy Saga, there are five characters that can join the party. Another improvement is the number of enemies you can battle at once!

MIND GAMES

Think fast. This is definitely no ordinary poker game. Counting the cards is not so easy when you're dealt a new one around every five seconds. It'll take all the concentration you have to beat this game. Of course, a little luck couldn't hurt.

LAZLOS' OLEAP

Puzzle Extraordinaire

Think all you like. In fact, take all the time you need to figure out 100 increasingly challenging and involving puzzles that may make you forget what planet you're on. By the way, make sure you have plenty of spare batteries.

COWABUNGA DUDE!!

The Turtles are back in a new adventure for the Super NES system. Turtles In Time is the new adventure in which the Statue of Liberty has been stolen! To make matters worse, Shredder has banished the Turtles into a time warp from which they are never to return. You must fight your (the turtle's) way out of the time warp, defeat the Super Shredder and return the Statue of Liberty back to its original resting place!

In the first three levels of the game, you must defeat the Foot Clan soldiers in the streets of the Big Apple. In level four, Shredder puts you into the time warp. After starting out in a prehistoric age, you must then fight your way back to the present day in order to defeat Shredder and reclaim the Statue.

Game control accurately matches the arcade and it has some very cool special attacks complimented by Mode 7 scaling. There are also numerous power-ups to collect that make thrashin' Shredder a most easily, excellent task.

NORMAL ATTACK

Leonardo is the most well rounded turtle. He will do most everything well. His weapons, the Katana Swords, are very powerful and all of his moves are relatively fast. His special move is a spinning double sword slice, which is one of the most powerful attacks. Use Leonardo and send the Foot Clan crying home to Shredder.

NORMAL ATTACK

Michaelangelo is a fairly rounded character. His greatest asset is his weapon, the dreaded...Nunchakus. Although his weapon is the most powerful, he lacks an important feature, speed. He is the slowest of the turtles. However, his special technique is a twirling attack that uses the Nunchakus. This is extremely powerful.

NORMAL ATTACK

Donatello will not win any world's fastest speed records either, but his other actions make up for his sloth-like movements. His weapon is a simple Bo, but there is not anything simple about it. It enables you to give the Foot Clan a good beating before they can even think about touching you. Donatello's special move is a jump kick used with Bo.

NORMAL ATTACK

Raphael is a bit on the speedy side; in fact, he is the fastest turtle of the bunch. Due to his speed, his special attack and rush attack are extremely effective. His weapon is a pair of Sais. This is a relatively powerful weapon, but due to the size of it, Raphael's defense suffers. Raphael's special attack is a ballistic round kick.

Customize your turtle and power him up in the option screen.

THREE JOKERS DO NOT BEAT AN ACE!

June 28, 1914. Arch Duke Ferdinand was assassinated in Sarajevo. This atrocity led to the declaration of war between the Triple Alliance of Great Britain, France, Russia and the Triple Entente of Germany, Italy and Austria-Hungary. The war lasted for four long years. Born during these years was an elite breed of airplane pilots, the Aces.

Wings 2 - Aces High puts you back in time to fly with one of the most potent flying forces of the war. You are in command of a squadron of five recruit pilots. Prepare to successfully pass all of your recruits through flight school to earn them their wings. Thus, the fun begins. You must power-up your pilot until he becomes the elite, the Ace. To do this, he must fly actual combat missions and complete them successfully. The R.A.F depends on you!

After selecting a pilot or finishing a mission, you have the option to fly another, return to the barracks for a rest an a code or review the records of you performance.

When back form a tough mission, return to the barracks for some rest, again, and a code to continue where you left of for later.

THERE ARE FIVE PILOTS TO CHOOSE FROM!!!!

Lawrence Wolfe is a rich socialite in search of glory. His forte is the Lewis gun.

This is Charlie
Dexter, an American flying for the
R.A.F. He was
born to fly.

John Hargreaves, a former factory worker from Manchester, is now an Ace in the R.A.F.

Sean Maloney is an Irishman who started out as a mechanic. He now flies for the R.A.F.

Marcel LeBlanc is an Ace who left Canada to fly for the R.A.F. He is a known marksman.

All of these men, from very different walks of life, developed the most potent fighting force of the war. You will now have the chance to play the role of these pilot Aces.

FLY A VINTAGE WWI AIRCRAFT OVER EUROPE!!

What makes an Ace is his ability to maneuver an aircraft and shoot down his enemy before getting hit himself. There are many Dogfighting missions you must accomplish in this game, but only the tough survive.

Downings of enemy aircraft are few and far between. It takes excellent flying to line up the shot and a good eye to put him down.

When you return to the barracks after a successful mission, you will be able to power-up the pilot's characteristics.

Bombing missions are the hardest to accomplish. Low level bombing

makes your aircraft venerable for ground based assaults to hit.

Low level bombing missions are the toughest aspect of the game, but if done right, they can really ruin someone's day.

Low altitude bombing is one of the harder aspects of being an Ace. It takes steady flying and perfect timing on the release.

Strafing requires the Ace to fly close to the ground, destroying vehicles and installations along the way. These missions demand extremely good flying because the ground can be quite hard on a flying aircraft.

An Ace's job is never done. You will encounter assorted ground vehicles from trucks to tanks. Your job is to eliminate them.

Fly low and hit hard!! Strafing missions play an important role in the Ace's life. Let your machine gun rule the sky and the ground.

"CAN YOU FIGHT, FLY, AND EVEN CROW?"

Nevernever Land is under control of Captain Hook! Thus, get ready for the adventure of a lifetime. You need to rescue your daughter and son, defeat Hook and, most importantly, have lots of fun, so you can never grow up again!

The plot of the game is straight from the movie. Everything from flying to new heights, to battling pirates, to proving your worthiness to the lost boys is here! Be prepared, Nevernever Land is larger than you think! Ten vast levels of pirate infested challenges await you!

All of the Lost Boys from the movie are here! They will be able to guide you through the game and give you clues on where to go and what to do!

The dagger is your most common weapon. It has the power to cut down most enemies with a single slash! If you learn the basics of it, nothing will stop you!

Your sword is the one thing that makes Pan complete! The beauty of this is that it will fire magical dust at the enemy. However, if you get hit, all is lost!

Is it a bird? Is it a plane? Well, it does not take an Einstein to figure out who it is! Once you find Tink, your flight meter will be filled. It does not last long, though.

You will find Tinkerbell in the game. Enter the dust that she is dropping and you will be granted the power to fly. You can keep entering the dust to recharge it!

The leaf has the power to restore either all or just a fraction of your health. Be sure to find these, you will more than likely need them to survive!

1-ups are the key to survival! The more you have, the better your chances. Yet, you need to look really hard, as they are hidden in precarious places!

You will next enter the forrest just outside the lair of the Lost Boys. Be careful because the pirates are hidden everywhere! Some will be behind bushes, but most of them will be waiting in the trees! You will then need to soar through the trees and swat them out! Think that is easy? Well, Hook's money grubbing assistant is ready with loaded boxing gloves for you!

Once on the mountains, your main goal is to soar through the range and try to avoid, or defeat, all of the pirate foes and fire-breathing leopards (I thought the pirates had no imagination) that stand in your way! As you get to the end of the stage, a floating mini-pirate ship stands in your way! He will always be airborne, so make sure to keep going back to Tink!

Level one is where Peter Pan first learns how to fly! However, the Lost Boys do not believe that he is Peter Pan, so they put him to the test! Peter faces the boys in their own territory, though, where their imagination controls all, including the weather. To get your sword, you will need to battle Rufus. He is waiting for you at the end and he has one mean, jealous attitude!

"Head for the hills!" Next, you need to battle through the cliff edges and battle the seafaring lackeys of Hook. Also, some savage plants will be strategically located all over the place! You will need to figure out which way is the safest route. In addition, there are times that you will need to fly in order to reach certain places! It is a good thing that there is no boss.

The ice caverns will have you slipping and sliding all over while you are trying to find out where to go. As always, there are plenty of dangers that are scattered throughout this level such as bats that soar through the dark winds, dragons hidden in the walls, ice snakes and even piranha swimming in the icy, blue waters! There is a whole lot more, so explore to your heart's content!

Pick the kind of game that you want to play. Your best bet is to try a practice game first.

Super Bowling by American Technos for the S-NES is on its way to "pinhead" fans everywhere. This game has it all; the fun, the sounds, the graphics and riotous game play that make it just as much fun as the real thing.

A multi-function control bar enables you to select ball options such as power of your throw, angle of ball curve and which side of the lane the ball will travel. Even the amount of wax on the lane's floor can be adjusted for increased or reduced ball spin! Further options include variable ball weight, left or right handed bowler capability and difficulty select.

In the practice mode, you can hone your technique by practicing those tricky splits. In the golf mode, the pins are set randomly by the computer and you have three chances to get them all. Finally, turkey bowl is just like regular ten pin bowling.

Avoid the gutter and strike it big with Super Bowling!

In bowling golf, you must knock down all of the pins, which the computer randomly sets up.

After every three frames, your score will be displayed by the computer.

After you throw the ball, the screen splits, enabling you to view both the ball and the bowler's amusing reactions.

In the practice mode, you can set the pins yourself. This allows you to perfect your shots while experimenting with different techniques.

MAGIC JOHNSON'S

SUPER SUAM DUNK

IT IS <u>NOT</u> JUST THE SHOES!

Magic Johnson and Virgin Games have joined to bring us a slam fest that is not for the weak of heart. You can choose to hit the court with any one of the many pro teams available.

The baskets are few and far between, so you must find the player on each team who will do most of your scoring. A surprising amount of half court shots are completed. Also, a surprising amount of slam dunks are missed, so be prepared to spend a little time learning who can score and from where on the court.

Passing is truly impressive in Super Slam Dunk. We are talking about behind the back, no look passes happening all of the time! Be careful, though, because the computer is good at stealing the ball.

There are plenty of opportunities for fast breaks with open lanes to the basket. However, successful dunks are not as frequent as one would expect. You must learn to slam the ball.

Magic Johnson's Super Slam
Dunk is a fast paced, no holds
barred good time. For the true sporting enthusiast, this is the ultimate in
basketball action!

Welcome to the stadium! Virgin really pulled out the stops for this beautiful view from the balcony.

As slams go, this is one of the best. It is a forward jam with hang-time on the hoop for style.

Find yourself in the crowd going nowhere? Well, jump up and draw the foul! Try to make the shot too.

So, you say you just cannot get in the paint? Then, fade back and take the big three from the line!

This incredible court challenge provides many impressive slams. Here is the left hook jammer!

He is out of right field for the flying two handed jam! It is sure to cow any and all opposing teams.

When an opponent gets in your way, jump up and plant your foot in his chest. Intimidation!

SHOOTER

Fear not brave warrior, for this venture is not a gallant stride into the realms of a perplexing RPG. The chaps at FCI have struck a deal with TSR to produce a game based off of the old D & D game and have came up with a shooter of revolutionary proportions!

Choose from the three most powerful dragons in the medieval skies to take on the classic forces of evil and terror. All you need is your fiery breath and the ability to dive into the lowest parts of the lands to desecrate your enemies! Giant bosses and even fortresses stand in your way of the ultimate prize...peace throughout the land! It is all up to you - Dragon Breath!

The bronze dragon is quick, but lacks good stamina!

The silver dragon has a good flame and a freeze beam!

The golden dragon is your all around, average, flaming dragon!

The first stage puts you on the island plains. Your mission is to destroy three white dragons! Be careful as to where you go, as

the forces on the ground are very powerful!

As you enter uncharted waters, you must take out the enemy's first line of seafaring war vessels and tortoise-like monsters, but

then get ready to do battle against the Kraken!

In level four, you must avoid this dinosaur's fireballs. Throw your star at it to ride across the lake on its back.

Get the life potion for energy.

GREEN WONDER

A great new action game is coming out from Sunsoft. Mr. Gimmick is a cute and very playable game with multiple levels to conquer. Within each level, there are multiple stages which need to be conquered to get to the Boss of that level. Mr. Gimmick's main weapon is a star that he makes above his head and throws at enemies. The levels have obstacles such as spikes, conveyor belts, platforms with breakable floors and steep walls to climb. Adversaries include black dots that have multiple weaponry, jumping forest creatures, blobs, spiked beasts and many other types of animals. Collect bottles with items to throw at enemies, such as the bomb and pink fireball potion. All of these things in a 3-Meg cart make one good game!

In level two, Mr. Gimmick is on a ship. Use the star weapon to get rid of cannons and the Blob.

Level five will provide you with the most trouble due to its conveyor belts, gears and heavily armored enemies!

Throw the bomb potion at foes.

The forest in level three is filled with strange (and smart) enemies. At times, they jump your weapon!

The map of Mr. Gimmick's world will show up whenever you conquer a stage. Then, you will see the next place of your journey.

This will give you a pink fireball.

MR. GIMMICK

DON'T HAVE A COW, MAN!

The Simpson's are coming to the Genesis and this time Bart must save Springfield from The Space Mutants! The main man, Bart, is having a good old time causing mischief, when suddenly before his eyes, a giant U.F.O. lands and releases an entire horde of space mutant martians that are disguised as normal human beings. Their job is to wreak havoc in the streets of Bart's home town.

Playing the part of Bart, you are the only one who can save Springfield from the dreaded space mutants. Thus, your job is to guide Bart through the avenues and byways of Springfield to take out this alien menace! Along the way, you must find spray paint cans that cover the purple alien objects to destroy their harmful effects. Also, using a pair of x-ray glasses that allow you to see through the clothing of humans, you must determine who is real or mutant. Bart (you) must enter shops and purchase equipment to help him on his quest. You even get to take a ride on your skateboard for

a mad dash through the sidewalks of Springfield spray painting the space mutants purple. Remember, the fate of human mankind, as well as your family, rests in your hands!

With the summer games coming soon from Barcelona, U.S. Gold is bringing Barcelona '92 to the video gaming public not fortunate enough to attend the real event.

Barcelona '92 features all of the major events that will actually happen during the course of the summer games. There are seven events to choose from including track, hammer throw, diving and archery.

A few of the options include practicing those events that you are not too confident about and even changing the language! You can compete against the computer, or have a bunch of your friends battle it out for the gold metal!

The archery range requires a steady hand and pinpoint accuracy to come out a winner!

The track race is the most exhilarating event. Blow through the starting gate and win a race!

The hammer throw is the ultimate test of strength. Can you break the present world record?

The pole vault is adjustable to many heights for you to practice, or to beat present world records.

Diving is an easy event to score big points. Simply follow the on-screen controller movements.

World class soccer is coming your way. Choose among a variety of countries in your quest for the prestigious cup. Different teams and different players each have unique abilities. Sometimes you will have to choose between your heart and your head when choosing which team you will guide to glory and fame.

The fast pace, grueling action, and tough competition has made soccer the most popular game in the world today. Pretty passing, flying headers, bicycle kicks, slide

tackles, yellow cards and red cards are all part of the game. Watch out for your players becoming fatigued too. Sometimes fresh legs are better than your superstar.

If your passing game comes along you might be

able to hit a bicycle kick or break a window. There's nothin' like playin' ball in the house. So, let the games begin.

THE VIOLENT TAKE IT BY FORCE

In the 30th century, a space colony is almost near completion. The main computer begins thinking on its own and executes a hostile takeover using the machines that once served the colonists. You must go in and destroy the computer.

Last Resort has game play set up somewhat like the classic R-Type shooters in that you have a special attack unit which can be placed in the front or rear of your ship. An added enhancement is

BUILD YOUR ARSENAL TO SURVIVE! HOMING Launches 2, 4 or 6 heat seeking missiles that take care of business. LASER Fires high-power rings and beams. Most effective on end bosses. GRENADE Powerful air to surface bombs that spread destruction evenly.

LAST RESORT

that you can position the unit in eight different directions. There are also three different weapons that you can pick up. Each of which can be powered-up three times. The weapon icon you get will give you the LR-360 unit. Every one afterwards will increase the weapon's power until it is fully charged. If you use the unit as a shield, you can

absorb enemy shots. The mission consists of five difficult levels before you even get to the main computer. Ahead lies all kinds of enemies including a battle cruiser that is 100 times your size! Make it through the asteroid field and you will enter into the computer's last resort of defense. It's SNK's most intense game yet, and perhaps their best.

You can speed up or speed down the movement of your ship by just flying through the icon.

SPECIAL POWER-UP FEATURE!

If you hold the fire button down for a few seconds, then you can launch the unit as a weapon. If it is blue, the unit will rebound off the walls and ceiling before returning. If it is red, the unit will hug the ground or ceiling like an A-to-S missile.

STAGE ONE: THE CITY LIMITS

Here is where the battle begins. The enemies are small and weak at first, but watch yourself because there is a massive tank waiting in the tunnel. The Boss's weak point is under its torso. Watch out for its fireballs.

STAGE TWO: RUINS OF METRO CITY

The aliens have demolished one of the largest cities and are on their way out. Beware of enemy silos and cannons positioned almost everywhere. The Boss fires a mean flame thrower. Stay to the left and blast it.

STAGE THREE: CAVE OF NO RETURN

Venture into the underground base of the invaders. Your first welcoming committee consists of a huge submarine loaded with guns and kamikaze enemy fighters. Destroy the Boss's legs and then go for the upper body.

STAGE FOUR: FACTORY OF DEATH

This is where the mechanical army is being assembled. Attack aggressively and watch for booby-traps. Two guardians block your way, with other surprises. The Boss is rather easy, but getting to him is tough.

STAGE FIVE: THE LAST RESORT

Utterly amazed at the problems this lone starfighter has been giving them, the main computer launches its final and most vicious attack. You must go up against a battle cruiser that is over 100 times your size! Make it through the asteroid field and you will enter the lair of the main computer.

SEGA GAME GEAR

Check out this awesome Boss at the end of level 2! Blast it into oblivion with your weapons.

Use the barrier to protect you from enemies that come at you head-on. Hurry up, though, it only lasts through a few collisions.

The scrolling backgrounds add increased depth to the game. Shoot the drones in the brackets for weapons and power-ups.

This is a shooter of mythical proportions, with enough power-ups and weapons to keep even the most seasoned gamer happy. Collect weapons while your ship becomes a flying arsenal.

Prepare yourself for a nonstop onslaught of bizarre and deadly enemies. For a real blast, play with a friend in two player mode!

These big robots can be a real menace, if you are not careful. The detailed backgrounds are both beautiful and ominous.

Watch out, you will be attacked from both the air and the surface. You must act quick to survive!

The incredibly large variety of weapons is what makes Aerial Assault a shooter fan's delight! Here are just a few examples.

Here's one way to take Sonic The Hedgehog[™] wherever you go.

GO FOR THE OLYMPIC GOLD!

So, you cannot wait for the summer games in Barcelona? Well, U.S. Gold has brought the games to you the hand held gamer. The first thing you realize is that you may be in over your head. Luckily, there are three levels of competition - Club, National and Olympic. They give you a chance to work yourself into shape, which you will need to do. Your fingers must be mega strong and fast to win a medal. There are seven games to play and three levels of competition with three different venues (practice, mini-olympics and full olympics). If you are confused as to how a sport is played, the computer will show you. Start training now for the action of the Summer Olympics in Barcelona '92.

Banco 92

Don't splash! A good dive goes in straight. You have many dives to choose from; some are very hard.

Photo finish! In the running competition, you will have your work cut out for you.

Put your back into it! Swing that hammer over your head, spin till your sick and then throw it . Easy!

The hurdles are a combination of strength and dexterity. Your fingers will really get a workout!

Get up there! In pole vaulting, you need speed and technique to successfully get over the bar.

No doggy paddle here! The key to the swimming competition is breathing. Give it a try!

Pass them on the left! If you do not finish in at least 10th place, you will not be able to continue.

With 22 races and three seasons, there is never a shortage of rough terrain to challenge you.

WHOA! Where is the road? Look out for that pole! Do not get too crazy because, you will crash!

Victory at last! If you must, drive the jeep out of bounds to earn that checkered flag!

Time For A Four Wheel Free For All!

Virgin has come up with a sure fire hit for GameBoy racing fans. Jeep Jamboree is an all out, go-for-thegusto, free for all! If the other jeeps will not let you pass, then go off-roading and let them eat your dust. There are no points for good behavior, so get crazy! Put the pedal to the floor and drive over anything that gets in your way. (With the exception of trees, poles, big rocks and, of course, jeeps.)

There are many different tracks in the circuit. From the mountains of Maine to the deserts of Southern California, you will race through the roughest and the trickiest roads America has to offer. You may need different driving strategies to compete with the best drivers in the jeep racing world (which can include your friends if you have a hookup), or you may prefer just to "lead foot it" and hang on by yourself. Either way, you are bound to find all of the action you can handle, and then some!

After all is said and done, it is the points you have that say to the world whether you are tops in Jamboree!

Oh no! Watch out for that jeep. You can crash into trees, poles, rocks and busted jeeps.

After every race, you get the "race result" and then your season standings. Try for first place!

THE HUNCHBACK THAT PUNCHED BACK...

If you enjoy big action, but would prefer a kinder, gentler game challenge, then Super Hunchback by Ocean of America is right up your alley. In this wholesome adventure, you must simply get the fruit to get the points. Dodge logs and ruthless gunners to get into the castle; yet, all the while, you never have to fire a shot to make it there. It takes great skill to stand on the logs that reach the fruit and cannonballs necessary to ascend the castle walls. Once there, you should avoid the ghost in

NINTENDO GAMEBOY

Three cards are all you need for a straight, but it is worth more points if you get four or five.

A three card flush is the easiest play to get, consequently it is not worth very many points. Oh well.

A little planning and a lot of luck are all you need to create a flush that will collapse and in so doing, create yet another flush!

Three of a kind is a great deal! Keep an isle open to catch such lucky finds. Trust me, it works!

Your dreams have been answered. It just does not get any better than a royal straight flush!

Two Dimensional Poker Anyone?!

The great minds at DTMC have taken the ever popular game Tetris™ and gave it a new twist. By adding a deck of cards and the skill of poker to an already great puzzle game, they have created one of the most entertaining hand-held brain teasers to come out yet. Five lanes down and five lanes across create unlimited opportunities for poker hands. The object is to go through an entire deck of cards by placing them across and above each other. When you create a poker hand such as a flush, a straight, or three of a kind, the cards will disappear (giving you points) and all of the ones above them will move down leaving room for other cards. If you run out of room before you run out of cards, then you bust and all remaining cards on the screen are added up (fifty points each) and subtracted from your score. If you end up with less than five hundred points (you start with a thousand), then you lose and do not get to go on to the next level. If you are not a good poker player, do not worry. You will be by the time you master this one!

How unlucky can you get?!

KONAMI GIVES EGM SNEAK PREVIEW OF SUMMER CES GAMES

Just as we were about to go to press, Konami invited EGM to see some of the games which they will be introducing at the Summer Consumer Electronics Show. With camera in hand, our editors snapped a few photos of some of the new Super Nintendo games which looked really hot.

Martin is all excited as Konami officially announced that the ultimate shooter - Axelay, will be coming out in the U.S. in September. (Watch for an EGM exclusive on this game next issue!!)

Turtles 4 is scheduled for August; Cybernator in October; NFL Football in November; the super hot Batman Returns in January 1993; and Tiny Toons Adventure in February.

The NES won't be ignored as September will bring Contra Force; November - Tiny Toon Adventure Cartoon Workshop; December -Grand Prix and Batman Returns; and January 1993 Tiny Toons Adventure 2.

For the GameBoy Konami has Zen: Intergalactic Ninja and Track and Field coming in August. Batman Returns is scheduled for 1993.

Sources inside the company are also hinting that yet one more new, super hot project will be announced at CES.

It's going to be a fantastic holiday season and Konami will be right there

PREHYSTERICAL ADVENTURE!

Joe and Mac are two cave dudes with a problem. A tribe of neanderthal nerds invaded their camp and scared off all of the cave babes. Your mission is to rescue the lonely cave babes and get them back home safely. You can go alone, or team up for more firepower. Along the way, you will encounter a number of dinos and other unnatural disasters. You must go through 11 levels before getting to the real source of the problems in the world. The U.S. National Video Game Team is

here with maps, tips and strategies that will let you play like a pro and survive this prehistoric adventure. You will get the first half of the game this time, then we will complete the game in the next issue - only in Electronic Gaming Monthly!

Across the overhead map, there are numerous grey circles. If you walk across one, you will place a statue there. When you die, you will continue there.

STONE WHEEL STRENGTH S

SPEED REPEAT 5

At the beginning of the game, the only weapon you have is a club. It is not very effective, as you must be right next to the enemy and it is very weak. The best all around weapon against the end bosses is the stone wheel.

ONEI

The mother Tyrannosaur is very upset and you have to deal with it. Stay to the far left to avoid the cavemen she spits out. Move to the right, as she lunges at you from time to time.

LEVEL ONE

- 1. There is a boomerang in the egg above you. Use a Pterodactyl or another player to boost you up to get to the egg.
- 2. Kill all of the enemies on the screen and then crack open the egg. A friendly Pterodactyl will take you to Bonus One.
- 3. You can get the Fire weapon if you jump on the purple Pterodactyl, then jump at the icon.
- 4. If you defeat the baby Tyrannosaur, you will get a Large Meat.

Boss

To beat the Boss, walk all the way to the right and keep hitting it. (Total safe spot dudes!)

LEVEL TWO

- 1. Jump down to get the Fire icon and use it on the Boss.
- 2. Be sure to kill the fish before jumping over.
- 3. Go as far to the right as possible to make sure that the water spout on the left is not seen. A friendly Pterodactyl will take you go to Bonus Two.
- 4. Watch out for rolling cavemen.
- 5. Move fast. Jump onto the ledge with a short leap for safety.

LEVEL THREE

- 1. Be sure to kill all of the Pterodactyls that fly by here.
- 2. If you knock down all of the beehives on the tress below, a hidden 1-Up and two pieces of meat will appear as a bonus for you.

If you kill all of the
Pterodactyls and
destroy all of the
beehives before you
get to this ledge, you
will be rewarded
with a 1-Up and
some meat.

BOSS THREE!

This full grown Pterodactyl is really mad because you have been picking on its babies. It will drop eggs that hatch into more babies as one means of attack. It will also dash across the screen at high speeds. Your best bet is to stay on the ground and fire Boomerangs or Bones as it flies overhead. Watch out for those wind gusts, too!

USE THE KEY TO OPEN THE EVIL GATE!

If you have a key by the time you get to the first blue spot on the map, then you will be able to destroy the evil gate and gain access to the super bonus room. Keys can be obtained by discovering the bonus rounds in each level with a red egg. In this bonus room, you must catch all of the meat. A 1-Up will appear, but you should not catch it. When it hits the ground, it will disappear and four more 1-Ups will appear! Go for it!

LEVEL FOUR

- 1. Stay on the top ledges to avoid the flying fish easier.
- 2. Be sure to crack the red egg when there are no enemies on the screen and the friendly Pterodactyl will bring you to Bonus Three!
- 3. Watch out for the cavemen that are driving primitive go-carts, jump over them and grab the steaks above!

BOSS FOUR

All you really have to do is stay in the left hand corner and shoot out Boomerangs or Stone Wheels. You will get hit every once in a while, but you will win.

OPEN ANOTHER EVIL GATE!

Get a second key from the bonus round in level two and you can open up this evil gate to find another bonus round. In this round, you must make a choice of which egg to crack open. Inside, you will find all types of goodies. The egg on the far right has a 1-Up in it, so this may be the most favorable choice.

LEVEL FIVE

1. The main obstacle in this level is the avalanche of falling rocks from above. You must guide your Pterodactyl through the area and avoid the dangerous rocks.

If you keep moving, you should have no problem avoiding the falling rocks. Do not stay in one place too long, or you will get pelted by a number of rocks.

BOSS FIVE!

Fire or Stone Wheels should polish off this overgrown sea monster. It will spit fish out at you and lunge at you from under the water. It is very weak and will not be a tough Boss to beat. Be careful, sometimes it will return your shots at you threefold.

BOSS SIX!

Use Boomerangs or Stone
Wheels on it for the best results.
After much damage is done, boulders will fall from the sky. You can stand between them as you finish the mean, old Mastodon off.

LEVEL FIVE

- 1. Get the large meat to fill up your life.
- 2. Watch out for these rock throwers, use Stone Wheels to take care of them.
- 3. Make this jump slowly, or else!
- 4. Be sure to crack this egg before leaving the area.
- 5. If you cracked the egg, a 1-

Up will appear.

Like the first encounter, all you have to do is reflect his shots with your sword.

After Ganon escapes, your trusty pet bird will carry you to the top of the pyramid where he is hiding. Just jump in!

A Legend Comes To An End!

The land of Hyrule is in turmoil again. An evil wizard named Aghnim has taken over the land and wants to rule the world. But he is only a pawn in this master plan. A greater evil is plotting to take over Hyrule. Ganon, yes, Ganon is up to his old tricks again. You must retrieve 7 crystals in order to open the gate to his castle. Once you reach the top of the last castle, you will be confronted by Aghnim. Once he is defeated, Ganon will arise from his body and flee to the great pyramid. Can you bring peace back Hyrule? You are the only hope.

At first ganon will throw his scepter at you and shoot fireballs. Just hit him with your sword to inflict damage.

Ganon will blow the lights out and you will have to keep them lit in order to hit him with your sword.

After defeating Aghnim, Ganon will arise from his body and change into a bat and fly away.

WHen you hit him with your sword and the lights are on, he will turn blue. Now finish him off with the Silver Arrow!
